

THE RIGHT KIND OF A ROOF

Long years before you could find a sign of wear-out about an "Oshawa"-shingled roof, any wood-shingled roof would be rotted to dust. Any ordinary metal-shingle roof would be pitted with thousands of rust holes. Any patent paper-and-tar roof would be ragged pulp. Even a slate roof would be dangerously out of repair—

Long, long before any "Oshawa"-shingled roof needed a single thing done to it.

Because, as you can easily see for yourself, there is simply nothing TO wear out about a shingle of heavy (28-gauge) toughened steel, special galva-

nized to defy moisture—"Oshawa" Galvanized Steel Shingles are like that.

We are safe enough in guaranteeing these shingles for twenty-five years, as we do, in plain English, with a quarter-million dollars back of the written guarantee, which says:

If any roof that's "Oshawa"-shingled in 1909 leaks at all by 1934, we will put on a new roof for nothing.

Honestly, we believe an "Oshawa"-shingled roof will last a century, let alone twenty-five years. Why shouldn't it?

These heavy steel galvanized shingles lock underneath on all four sides in such a way that the whole roof is practically one sheer sheet of steel—without a crevice or a seam to catch moisture or to let wet get through.

Long years before you could find a sign of wear-out about an "Oshawa"-shingled roof, any wood-shingled roof would be rotted to dust. Any ordinary metal-shingle roof would be pitted with thousands of rust holes. Any patent paper-and-tar roof would be ragged pulp. Even a slate roof would be dangerously out of repair—

You need never put a brushful of paint on an "Oshawa"-shingled roof, the special galvanizing makes paint entirely needless, and it won't wear off nor flake nor peel. Yet that roof will be Rain-proof, Snow-proof, Wind-proof, Weather-TIGHT as long as the buildings stand.

Fire-proof, of course. How could a seamless sheet of tough steel catch fire?

That alone is worth the whole price of these Oshawa Galvanized Steel Shingles. Count the saving in insurance

**Lasts a Century
Never Needs Painting
Can't Catch Fire
Makes Buildings Lightning-proof**

Canadian farm buildings alone, and "Oshawa"-shingling would have saved all that loss.

Yet, with all these things to show you that an "Oshawa"-shingled roof is the RIGHT roof for you, "Oshawa" Galvanized Steel Shingles cost no more than wood shingles to start with. Let me tell you just what it would cost to roof any building right. You needn't figure the labor, for anybody who can use a hammer can put these shingles on easily and quickly.

Will you let me send you sample shingles, an estimate, and book that

tells all about "Roofing Right"? It would pay you, I think, to read the book. It's free, of course.

"OSHAWA" GALVANIZED STEEL SHINGLES

A new roof for nothing if they leak by 1934.

rates (any company makes a lower rate on buildings so shingled). Count the

freedom from anxiety, the safety of your houses and barns.

And, a most important fact to you, an "Oshawa"-shingled roof is LIGHTNING-proof! Positively proof against lightning—insulated far better than if it bristled with lightning rods.

Half a million dollars doesn't cover the damage lightning did last year to
