

# A New Way to Regain Health and Happiness

The Old Way.

Long ago, when I first lifted my voice of warning against drugs and patent medicines and began my first great fight in favor of Electricity as a curative agent, I found anything but smooth sailing against superstition and prejudice, but, knowing I was on the right track, I pounded away, backing my judgment with what money I had, and have lived to see the great change of sentiment that has now come over the public.

I have done my part in showing that this whole scheme of taking something out of a bottle, a vest-pocket box, or to have something "rubbed on," in order to regain one's health and strength is principally pure superstition. I have taught that while the drug had a certain known direct effect, it had another and after effect that could not be foretold; that this after effect, or reaction, often causes other diseases, and produces complications and aggravations that require more drugs and still more drugs to mitigate; that this drugging habit, once entered upon, has no end this side of the grave.

The old methods are wrong, I tell you; the whole scheme is wrong. I have proved to the world that nearly all human disorders can be cured by removing

the primary causes, and if you will consult me, if you will read my book, which is free for the asking, you can learn something about this subject that will interest every Man and Woman who is in search of Health.

If you feel that your Health and Strength—your vital stamina—are on the wane, if your liver has got in your eye, your heart in your boots, if you are not the Man or Woman, physically or mentally, you would like to be, I can give you the means of getting back the Strength and Vigor you have lost; a process of treatment founded upon common sense; one in which the use of drugs in any form does not enter.

Again and again I have preached that "Electricity is Life"; that by building up the nervous energy of the body by a constant and steady infusion of this life force, the causes of seven-tenths of the weaknesses and diseases to which human flesh is heir can be effectively overcome.

Do you want proofs, Mr. Skeptic? I will give you an abundance of them. "An Ounce of Proof is Worth a Ton of Assertion." Below is a sample of the kind of evidence I have to offer. Write to me and I'll give you more.

## VARICOCELE—WEAK BACK—NERVES.

Dr. McLaughlin: Dear Sir,—A short time ago I purchased one of your Belts. I am very pleased to say that I have received great benefit from it in every way. My varicocele is almost gone, and my back is much better. Before using your Belt my nerves were in pretty bad shape—so bad that it interfered with my work. Any man can easily know what this means to me, as my health is greatly improved also, and I feel better than I have for the last five years, and only wish I had had one of your Belts before. I have spent a considerable sum of money one way or another for different drugs, and to tell you the truth I never thought there was a cure in the world for varicocele except an operation, as that is what a doctor told me in a London, England, hospital. I thank you for your kindness and all that you have done for me. You are at liberty to make any use of this you like in any of the papers, as I know it is all true, as I have proved it for myself. I intend to recommend your Belt whenever I get a chance, as I think it is a Godsend to any person to be in good health. Wish-ALBERT RALPH.

Kelso, Ont.

Do you doubt it? If so, any man or woman who will give me reasonable security can have my Belt, with all the necessary attachments suitable for their case, and they can

## QUESTIONS AND ANSWERS.

Miscellaneous.

### TEMPORARY MOLAR TEETH.

Please tell me, through your valuable paper, about the casting of a horse's molars. We can see and understand the front nippers. My idea is at three years old they cast the first two grinders in each jaw. At four years old they cast one in each jaw next to these; but the three back ones in each jaw they never cast. Am I right? If not, I have been misinformed.

E. B.

Ans.—You are almost exactly right. At from two years and three months to three years of age, the first and second teeth in each row are shed. At from three years and three months to four years, the third molar in each row is shed, and replaced by a permanent one. The three back ones in each jaw, as you say, are permanent.

### WRONGLY TAXED.

I had a fifty-acre farm rented for a term of five years, till March 1st, 1907. I bought a 100-acre farm, getting possession March 1st, 1907, and I kept the 50 acres until Nov. 1st, 1908, when the landlord sold it, and I gave up possession.

sion. This spring, 1909, the assessor came around and he asked me if I still had the fifty, and I said no, and he assessed me for the 100 only, and I have the slip. When it came time to do roadwork, I was down for 11 days, and I should only have 8 for the 100, but I did the 11 days, as the road boss said he would return it undone, but I wrote to the clerk of the township, and he wrote me saying I was assessed for the fifty, as well as the hundred acres, and that he would have to make the taxes out to me for the fifty as well, and that I would be compelled to pay them, and then to look to the owner of the fifty to pay me.

1. Can I be made pay taxes for fifty?  
2. What had I better do if they try to make me pay them?  
3. Can I get pay for the three days' roadwork I did for the fifty?

Simcoe Co., Ont.

J. E. B.

Ans.—1. No.

2. Defend any action or other proceeding that may be brought against, and instruct a solicitor for the purpose. There has evidently been a slip made by some officer of the municipality, and you ought not to be the loser by it.  
3. We think that the present owner ought to pay you, but we doubt if you are in a position legally to compel him to do so.
