The authorities of the village of Jocketa, in Saxony, with 215 inhabitants, recently installed electric light in the streets. The light is cut off at 11 p. m., when it is supposed everybody is in bed.

The authorities, however, discovered a number of club men who were "afraid to go home in the dark," and who kicked about having the lights extinguished at 11. To meet their demands, the authorities have attached penny-in-the-slot devices to the light poles.

A tired club man going home in the dark after 11 can now fumble his way to an electric-light pole, drop a penny in the slot, and light his way home. If he lives far from his club, two successive pennies will do the trick.

### QUESTIONS AND ANSWERS. Miscellaneous.

#### DISCHARGE OF EMPLOYEE.

A hires with B for a year for \$150, with a written contract, and signed by B.  
1. Can B, at the end of six months, send A away with \$75, telling A that is half a year, and only wanting to give him half of the pay?  
2. Can A make him give him a reasonable wage per month—or what would you advise?  
BONA FIDE.

Ontario.  
Ans.—1. No.  
2. If A has not acquiesced in such discharge, he is probably entitled to damages from B for breach of contract, and should demand same.

#### LANDLORD AND TENANT.

1. Can a landlord come on place, or hire someone to cut wood for his own use, if I am not agreeable, it not being mentioned in the writing?  
2. Can he take wood off which he cut last spring, and which former tenant cut, it all being on the place yet?  
3. How often is he entitled to come on the place?  
4. Can I tap the trees next spring, there being a good maple woods on the place?

#### CONSTANT SUBSCRIBER.

Ontario.  
Ans.—1. No.  
2. We think so.  
3. As often as is actually necessary for the purpose of such removal of wood, and also—probably—to view state of repair of buildings, fences, etc.  
4. Yes; unless forbidden to do so by the terms of the lease.

#### GRANGE MEMBERSHIP.

1. How many subordinate Granges are there in Canada, at last report, in good standing?  
2. What is the total membership, male and female?  
A. R.  
Ans.—1 and 2. The number of subordinate Granges on our last annual report is 90, making, with new Granges organized since last annual meeting, about 100, with a membership of about 2,000. It might be mentioned that a large number of persons throughout the Province, working under the Farmers' Association prior to the amalgamation in 1907, and who are still with us, are not counted in this list. At the annual meeting last November, a National organization was formed, composed of the Dominion Grange, Manitoba Grain-growers' Association, Saskatchewan Grain-growers' Ass'n, and the United Farmers' Association of Alberta. On matters of a National character, these four organizations are one, with a united strength of about 40,000 members.  
J. G. LETHBRIDGE,  
Secretary Dominion Grange.

#### BEEF-RING SETTLEMENT.

We have a twenty-share beef-ring. At our last annual meeting it was decided to pay for the first ten cattle killed, 8 cents per lb., and for the last ten 7 cents. How can this be figured out so as to make it come out even? When we come to settle up, the first ten have eaten some of the 7-cent meat, and the latter ten have had 8-cent meat. For instance, if one of the first ten has had 25 pounds more than his own beast weighed, how much per pound should he pay for it?  
BEEF-RING.

Ans.—Credit to each member who delivered more meat than he received, with the value of that surplus at seven or eight cents a pound, as the case may be. When all the excesses are added up, you will have, say, 266½ pounds, worth \$20. This excess of 266½ pounds will be exactly matched by an aggregate deficiency of 266½ pounds. The simplest, and a sufficiently fair plan, will be to charge every member who received more than he got, with a pro rata share of this \$20.

Example:

266½ lbs. deficiency are charged at	\$20.00
1 " " "	20.00
1 " " "	266½
25 " " "	25 × 20.00
25 " " "	266½
	\$1.87½.
