No More Sore Shoulders

 Ventiplex, the new collar pad, positively prevents galls and sore shoulders. Made of a new fabric that carries all sweat and moisture to the outer surface where it evaporates, thus keeping the horses' necks and shoulders always dry—comfortable and free from galls, sores, etc.

The Extra Weight in a KELSEY Saves Coal Bills

You can buy a Kelsey Warm Air Generator for less than any good steam or hot water heating system.

But a Kelsey costs more than an ordinary warm air furnace because it weighs more.

This extra weight is built into a Kelsey to give it more heat-radiating surface.

It has 61 square feet of radiating surface for one square foot of fire-grate surface.

A Kelsey heats larger volumes of air than an ordinary furnace, and does it with less coal.

Because a Kelsey consumes about one-third less coal than

an ordinary furnace it is more economical to operate.

A house heated with a Kelsey is worth more to live in and will rent or sell for more money.

The cost of a Kelsey is small when the saving in coal bills and repairs is considered.

This economical heating system is fully described in our booklet, "Achievements in Modern Heating and Ventilation." Send for it. 5

Pump annoyances never worry the Farmers who are fortunate enough to be using Imperial Anti-Freezing Pump

The "Imperial" is the pump best suited for all farm purposes.

It has a large air-chamber, extending to top of stand, containing 127 1/4 cubic inches. Has 1 1/4-inch plunger-pipe instead of stuffing-box. The advantage over the stuffing-box is that it has three plunger buckets which are self-expanding, and therefore require no attention. Can be used on any sized pipe from 1 1/4 to 2 inches in diameter, tapped for 1 1/4, 1 1/2 or 2-inch pipe. On tubular wells, the plunger can be withdrawn without removing the pump.

Get our illustrated catalogue with prices—sent postpaid. This interesting catalogue sent to you on receipt of post card. Send us your address to-day.
