Seven to One

That is about the ratio. About seven times as many persons are injured as die from all causes yearly. Accidents are a more prolific cause of death than any disease except lung diseases.

Twice as many people are accidentally killed as die of old age. Does it not seem reasonable to you as a business man that it would be to your interest to carry an accident policy.

In the recent gas explorations at Lethbridge, boring has been carried to a depth of 1,600 feet without getting an adequate flow of gas. This boring was done by the Electric Light Company, the promise being made that if gas were struck the city would buy the electric light plant and also reimburse the company for the \$10,000 spent in boring. Gas not having been struck, except in slight pockets, the feeling is that boring should be continued to 2,500 feet. It is not unlikely that the city will go on with the work.
