**TO ORGANISTS—BERRY'S BALANCE HYDRAULIC ORGAN BLOWER.**  
 These Engines are particularly adapted for Blowing Church or Parlor Organs, as they render them as available as a Piano. They are Self-Regulating and never over-blowing. Numbers have been tested for the last four years, and are now proved to be a most decided success. For an equal balanced pressure producing an even pitch of tone, while for durability, certainty of operation and economy, they cannot be surpassed. Reliable references given to some of the most eminent Organists and Organ Builders. Estimates furnished by direct application to the Patentee and Manufacturer, WM. BERRY Engineer, Brome Corners, Que.

 With the Monarch Lightning Saw!  
 Sent on 30 Days Test Trial.

A boy 16 years old can saw logs fast and easy. HILLY MURRAY, Portage, Mich., writes: "Am much pleased with the MONARCH LIGHTNING SAW. I sawed off a 30-inch log in 2 minutes." For sawing logs into suitable lengths for family stove-wood, and all sorts of log-cutting, it is peerless and unrivalled. A great saving of labor and money. Sent on Test Trial. Illustrated Catalogue, Free. AGENTS WANTED. Mention this paper. Address: MONARCH LIGHTNING SAW CO., 165 Randolph Street, Chicago, Ill.

**BWARE OF IMITATIONS.**—Since Dr. Thomas' Electric Oil has become celebrated, a number of unprincipled persons have been endeavouring to palm off Electron and Electric Oil for the genuine Dr. Thomas' Electric Oil. Beware of these similar named articles. If the originators had any faith in the healing properties of their own medicines they would, like honest men, give them a name of their own, and not try to sell them on the reputation of another; but as they know their preparations have no merit, they resort to the most unprincipled means of selling them by getting a name as near as possible to *Electric*. We therefore ask the public when purchasing to see that the name Dr. Thomas' Electric Oil is on the front of the wrapper, and the signature of Northrop & Lyman, the proprietors for Canada on the back.

**CONSUMPTION CAN BE CURED.**

**ONTARIO PULMONARY INSTITUTE.**

135 CHURCH STREET, TORONTO, ONT.  
**M. Hilton Williams, M.D., M.C.P.S.O.,**  
 Proprietor.

Who personally receives patients at the Institute for the cure of all the various diseases of the Head, Throat and Chest, including the Eye, Ear and Heart. We treat all diseases of the breathing organs by the inhalation system of practice, which is acknowledged by all physicians and people to be the only system by which these diseases can be cured. In consequence of the fearful mortality at present from throat and lung diseases, we present the following letter on

**CHRONIC BRONCHITIS.**  
 Bronchitis is an inflammation of the mucous membrane of the bronchial tubes, and is one of the most common of the pulmonary affections. Chronic bronchitis more often occurs later in life. When a cold settles on the lungs, the disease either ends in bronchitis or pneumonia. If it ends in bronchitis, it usually passes off as a cold in the chest, and still the patient does not feel entirely well. He feels tired and languid, and is incapable of taking his usual amount of exercise, and experiences a shortness of breath, with more or less warmth in the palms of his hands. Soon after this a cough appears, accompanied by an expectoration of thick mucus, followed by a hectic flush, loss of flesh and strength, and night sweats continue, when the patient resumes all the appearance of having a genuine case of consumption. But this is simply catarrh of the lungs or chronic bronchitis.  
 In the latter stage of the disease, the mucous membrane of the larger bronchial tubes swells, while in the smaller tubes and air cells of the lungs the mucous membrane becomes congested and inflamed. There are no cavities or tubercles in the lungs, but merely a wasting away of the larger bronchial tubes, and death takes place from the obstruction of the bronchial tubes and air cells of the lungs. The patient dies from exhaustion and suffocation, being unable to expectorate the mucus which accumulates in the passages leading to the lungs, which in some cases is sticky and small in quantity, but more commonly copious, of a light straw or yellowish green. Oftentimes streaks of blood make their appearance in the mucus, and at times there is a disagreeable smell. Persons thus afflicted are very liable to take a cold, at which time the mucus becomes clear and frothy, and it is not uncommonly the case that the patient dies in one of these attacks.  
 By this system of Medicated Inhalation, thousands of cases are cured after all hope of cure is lost. And thousands are to-day living witnesses of the very fact.  
 If possible, call personally for consultation and examination, but if impossible to do so, write for list of questions and Medical Treatise. Address
