

IMPORTED SHIRE MARES FOR SALE

I am importing a choice consignment of young mares to arrive in October. They have been bred to some of the best stallions in England and are supposed to be safe in foal. Buy a registered Shire mare and start breeding heavy draft stock, the kind that fetch big prices.

Also three imported Shire stallions for sale at reasonable prices.

Several splendid Berkshire boars for sale. Correspondence solicited.

**James M. Ewens**LAKESIDE STOCK FARM
Bethany, C. N. E.BETHANY, MANITOBA
Minnedosa, C.P.E.**FOUR IMPORTED SHORTHORN BULLS**

Importer and Breeder of High-Class, Pure-bred Clydesdales. Imported and Canadian-bred Stallions and Mares will be personally selected to fill special orders.

Breeders in the West can have Canadian breeding mares selected and shipped on commission, saving travelling and other expenses.

Correspondence invited.

WHITEWASHING THE STABLE

Whitewashing the stable should be one of the regular chores every fall on farms where cows are milked. In the neighborhood of some cities, milkmen who supply milk are required to have their stables whitewashed with lime each year. What they are compelled to do it would be well for other farmers to perform of their own free will. Whitewashing with lime sweetens the stable and adds to the satisfaction and self-respect of the farmer. The following directions for preparing whitewash are taken from a bulletin of the Illinois Experiment Station:

"Take a half bushel unslaked lime of good quality, slake it with boiling water (cold will do), cover during the process to keep in steam, and add water as the process goes on. To do this, the lime should be placed in a tight barrel and water enough added to partly cover the lime. Never cover the lime entirely with water, else the slaking process will go on too slowly. Soon after the water is added, the lumps of lime which are exposed to both air and water begin to crumble, and soon the whole mass begins to steam. More water should be added and the barrel kept covered. After the slaking process is over, several pails of water should be added, and the whole thoroughly stirred. This mixture should be strained through a fine sieve before placing in the barrel to which the pump is attached, and, if necessary, more water may be added to secure a mixture which the nozzle will deliver well. The contents of the barrel or bucket must be kept well agitated, for the lime tends to settle upon the bottom. The spray must be fine, and not allowed to play upon one place until the wash begins to run. When applied with brushes, a slightly heavier wash can be used, as it is generally well rubbed down. Light coats frequently applied are better than heavy ones, as the latter are more apt to scale off. While still wet a light coat seems to have failed in its object, but when dry the whole becomes perfectly white. One bushel of lime will make thirty gallons of whitewash. Many formulas for making whitewash are published, involving the use of salt, oil, grease, glue, rice, etc., together with the boiling of the material at different stages of its preparation. There are too much involved for the ordinary man, besides taking too much time. The addition of a small quantity of salt and oil is said

GOSSIP

"In the annals of harness racing," says the Horse World, "no occurrence has ever been more sensational than the record-breaking performance of the two-year-old filly, Native Belle, by Moko, in trotting a second heat of her race in the two-year-old division of the Kentucky Futurity last month, in 2.07 1/2, three full seconds faster than the previous record for the age, and four and one-half seconds faster than the previous race record for the age. It was 37 years ago that 2.45 was first beaten by the two-year-old trotter, Doble. It took eight years longer to see the mark placed below 2.30, and another eight years to develop a trotter of this age to beat 2.20. Three years later Arion astonished the horse world by trotting to a two-year-old record of 2.10 1/2, a record that endured for 18 years, and until Native Belle's performance last week, thought by many to be a record that would never be lowered. To appreciate fully the full merit of the new champion's performance, one should go back and take a look over the list of two-year-old champions, noting the gradual dropping down to the present extreme speed rate. The wonder with which Native Belle's performance is regarded by horsemen is well shown by the statement of many who saw it that they never expect to see another trotter of this age duplicate her fate. This does not mean that these men believe that no two-year-old will ever equal the new record, but rather that when the feat is performed again, most of the horsemen of the present day will have passed away. When it is remembered that it has taken 18 years to bring out a two-year-old good enough to beat Arion's record made at that age, in 1891, it does not appear that this view is likely to be proved wrong."

NO LONGER TORTURED

A Sergt.-Wheeler in R.C.A. Finds Cure from Agonizing Skin Disease

Sergt. Wheeler Thos. P. Bennett, R. C. A., who lives at 705 Albert St., Ottawa, describes the relief which he got from D. D. D. Prescriptions:

"It gives me pleasure to commend D.D.D. to sufferers from skin diseases. For three years I suffered intensely from a skin disease which I developed on the back of my neck. It grew continually and sometimes cast off scales. Neighbors' advice, prescriptions, salves and expensive blood medicines were lavishly used. At last I found relief in D. D. D., used according to directions. It required just one bottle to effect a cure. I am no longer tortured so I have no hesitancy in acknowledging to the world the worth and great virtue of D. D. D."

Blood medicines cannot kill the germs in the skin which cause eczema and other skin diseases. Salves fail because they cannot penetrate. D. D. D. goes right into the pores, kills the germs and cures.

For free sample bottle of D. D. D. Prescription write to the D. D. D. Laboratory, Department J, 23 Jordan St., Toronto.

For sale by all druggists.

CHURCH BELLS

CHIMES AND PEALS

MEMORIAL BELLS A SPECIALTY

FULLY WARRANTED

McSHANE BELL FOUNDRY CO.,

BALTIMORE, Md., U. S. A.

Established 1866

Mark Twain was talking about the famous robbery in his beautiful country house.

"Had I been living in Hartford," he said, whimsically, "some of my Hartford friends would certainly have accused me of robbing myself. They had a poor opinion of me in that town."

"Marshall Jewell, the ex-governor, used to take up the collection in our Hartford church. They never asked me to take it up. I fretted a good deal over this matter."

"See here, Jewell," I said, one day, "they let you take up the collection every Sunday, but they would never let me do it."

"Oh, yes they would," said Jewell—"that is, with a bell punch like the horse car conductors use."

"His Death was Due to Pneumonia

Following a neglected Cold"

This is a sad story repeated daily in our public papers.

The DANGER of a cold should always be considered, and to meet this danger there is no medicine so wonderful in its results as

MATHIEU'S SYRUP

of Tar and Cod Liver Oil

It resists the cold from the outset—drives it from the system and restores the affected parts to health. At the same time the patient is made stronger and better fitted to resist other attacks.

Price: Large Bottle, 35 cents.
