

FARMING has become a specialized business

It's no longer a "hit-or-miss" occupation, where "any old way" is good enough. Farmers are buying pianos and automobiles as never before. They're living as well as working.

The farmer has learned that it pays to employ progressive methods. That's why he is ever ready to receive helpful suggestions for improving his crops, his land and his home. It's also the reason that more than fifty thousand Canadian farmers are enthusiastic about our handsome book,

"What the Farmer Can Do With Concrete."

It isn't a catalogue, nor an argument for you to buy something. It is clearly written, interesting, profusely illustrated. It describes the various uses to which concrete can be put on the farm. Not theories, but facts, based on the actual experience of farmers all over the continent. It is the most complete book on the subject ever published, fulfilling the purpose behind it, which is to help

the farmer take advantage of concrete's possibilities. The list of subjects covers every conceivable use for concrete on the farm. The book's actual value to you will far exceed the list price of fifty cents, but if you will send us your name and address at once, we'll be glad to

NURSERY STOCK BARGAINS

D. W. BUCHANAN, of the Buchanan Nursery Company, St. Charles, Manitoba, has decided to retire from the nursery business. Under the management of Mr. Buchanan these nurseries have acquired a country-wide reputation for the quality and hardiness of their stock. All stock sold has been propagated by themselves from their own mother stock in their own ground. This has made the reputation of the firm.

The Buchanan Nursery Company has always known what it was selling. It has always sold the best. There is today no better stock in Western Canada.

The A. Mitchell Nursery Company, Limited, of Coaldale and Lacombe, Alberta, has, by a stroke of rare good fortune, been able to secure this splendid stock; but it must be taken off the grounds in a very limited time. This is the reason for this compelling offer at prices never before seen in this Western country. Remember that every item offered in these collections is a named, tested and tried variety of proved worth.

| Poplar, 3-4 ft. | 10 |
| Willow, 4-6 ft. | 10 |

COLLECTION NO. 3

FARM SHELTER BELT—Price \$10

You cannot make a home out of a wheat field and a shack. You must have trees to finish the home and shelter the garden and crops.

There is enough in this collection to plant a belt 100 yards long and 8 rows wide with the trees 3 feet apart. Three feet is the most economical distance as the ground is more quickly shaded by the branches and the work of cultivation is over the sooner.
