ROD AND GUN FOR JULY.

Anyone reading "Fish, Fishing and Fishermen" by George R. Belton in ROD AND GUN IN CANADA for July cannot help thinking of the good old days when a bent pin, a piece of string and a willow switch made the best fishing tackle for shiners, chubs and rock bass. "The Albino Bass of the Ottawa" is the title of a real fishing story from the Dominion Capital which is one of the several good stories in the national outdoor magazine for July. The six illustrations showing the capture of a Newfoundland salmon are the best this year. They accompany a splendid article on the Humber, King of Atlantic Salmon Streams. The interesting departments, Guns and Ammunition, Fishing Notes, Conservation, Kennel and Trap are all up to their usual standard and along with the second instalment of that interesting serial, "The Bear of Silver Dale" go to make up one of the best summer issues of the Canadian national sporting monthly. ROD AND GUN IN CANADA can be obtained from any bookstand or direct from the publishers, W. J. Taylor, Limited, Woodstock, Ont.

BUY YOUR COAL NOW.

A survey of the coal situation by the Commission of Conservation proves that a coal shortage next winter, and possibly next autumn, is almost a certainty.

During the year ended May 24, the output of anthracite was only 1,679,000 tons. This production is 65,000 tons less than the week preceding, and is 326,000 tons less than the corresponding week in 1918. While the production is falling off, retail dealers in the United States continue to be deluged with orders from customers who are insistent upon prompt deliveries.

Up to June 7th of the present year, the total production of anthracite was only 33,349,500 net tons as compared with 42,858,000 tons in the corresponding period of 1918, a decline of 9 1/2 million tons, or 22 per cent. It is a fair assumption that the production during 1919 will be less than 80,000,000 tons, whereas the production in 1918 was 99,514,334 tons. If this prediction be verified, there will be a shortage of 20,000,000 tons, or 20 per cent.

The shortage is due to a number of causes, not the least of which is the migration of tens of thousands of Jugo-Slavs, Czecho-Slavs, Hungarians, Poles and other Europeans who are returning to Europe.

In addition, if there is such a serious shortage, we may confidently expect much higher prices for anthracite. Therefore, the Commission of Conservation advises consumers to purchase their winter supply of hard coal at the earliest possible date.

McLAUGHLIN BUICK FOR SALE—

This car is in A1 condition, and any intending purchaser should see this before they buy. Apply to Francis Sheldon, Athens.
