THURSDAY, SEPTEMBER 12.

UNCLE SAM'S PROBLEM.

There is but one cry throughout the world to-day, and that is "Down Forks, 15 miles distant. The daily is with anarchy!" comments the Wood- sold in Dawson at 25c per copy, or stock Express. The cry is a natural \$4 per month, at the Forks for 25c one, but unfortunately anarchy can- per copy, or \$5 per month. The not be cried down; and how it is to be crushed down is not so easily seen. the creek. Newsboys average \$5 per In Russia we have an example of the energetic method of treatment, yet it is in Russia that anarchy flourishes most. The Czar lives in constant dread of the assassin. In the United States Anarchy has been allowed the freedom of the winds. The leaders and apostles of lawlessness are allowed to preach their doctrines wherever they can get anybody to listen, and to spread them broadcast by means of their printed papers; yet two Presidents of the United States have fallen before the assassin's hand, and a third is now, engaged in a heroic struggle for life. In Great Britain the same policy is pursued as in the United States. London is full of revolutionists and cranks, who are out let or hindrance, almost at the \$15; cards, 63 to 55 ,\$15; cards, 36 to very foot of the throne; yet Great Britain has remained remarkably free from the political assassin.

How is it to be accounted for ? For one thing, in Great Britain, while the utmost liberty of speech is permitted, open disrespect for law and authority is not tolerated, much less encouraged. It may be that no human provision can guard against the the storage of the bathing suit and the man to whom murder is a virtue, and pre-opening of city residences are harwho is willing to give his own life bingers of golden autumn's chilly in return for a little brief notoriety but the anarchist assassin is usually the mere materialization of a spirit of lawlessness; and while it may be impossible to guard against the individual, something may be done to stamp out the spirit which gives him his motive. Czolgosz may not be by nature a vicious man. It may be that he is merely an impulsive simpleton, without the ballast of a moral nature. No doubt he thinks himself a hero, and no doubt, had other influence been brought to bear on him, he might have been a hero-he would probably have risked his life in a good cause as freely as he did to commit murder had his surroundings given him a generous impulse instead of an

evil one. In the United States it is getting to be the custom to ridicule all authority, from the Supreme Court down to the ward boss. Apparently respectable newspapers speak of the Supreme Court of the United States in terms which in this country would be regarded as little less than sacrilege In the South organized mobs hurl defiance at courts and officers alike and arrogate to themselves the powers of life and death. And they are allowed to do so with impunity. Thus the law and those who should maintain its sovereignty are brought into contempt, and the way is paved for the anarchist. The United States must

in some way rid itself of the vipers it has been warming in its boson but no remedy will be effective till those who are in authority succeed in restoring a healthy tone in the community and a wholesome respect for law and order, by showing that the law is worthy of respect and must be respected.

JOURNALISM AT DAWSON.

Out of the way "print shops" are always interesting, and the particulars published by the Inland Printer, of the prices paid for a paper in Dawson, nearly the same size as The Planet, should make those people ashamed who grumble at paying two cents for their local newspaper. The Dawson Daily and Weekly News was established at Dawson, Yukon territory, July 31, 1899, by Capt. R. Roediger, and Wm. McIntyre, of Tacoma, for sixteen years proprietor of the Tacoma Evening News. The daily is a well gotten up and neatly printed six column, eight page paper, while the weekly consists of sixteen pages. Capt. Roediger is the general manager and resides in Tacoma., While J. Harmon Caskey holds the position of local manager at Dawson. The publication has been a good paying enterprise from the start and is now valued at \$35,000. W. M. Wilson, of Seattle, attends to the advertising in the United States. The salaries paid on the paper range from \$200 to \$250 per month. Hand composition, when done, \$1.65 per thousand. About sixteen people are employed in the different departments. A. H. Devers, from Chicago, is in charge of the job department, and Arthur Peterson, of Tacoma and Jay R. Barber, Seattle, are machine operators. Mention has already been made in these columns of the linotype machine which was taken to Dawson for use on this paper. It was machine No. 5.801. The Seattle Daily Times, of April 13, gave a very interesting history of the trip of this Alaskan pioneer machine with a picture of

Mr. Barber. The mode of distribution of papers is by dog teams in winter and by horses in summer. The carriers' runs range from 50 to 250 miles a week. The paper is circulated upon every creek in districts where work is being done. The daily is delivered the same evening it is published at the weekly sells, for 25 cents per copy in Dawson, and at 50 cents per copy on

day in street sales. Mr. Caskey, who was recently in Chicago, stated that aside from purchasing a year's supply of stock he would take in a half-tone etching plant and competent workmen to run it. The News is now erecting a modern building, to be completed early in

The prices obtained for printing in Dawson, would seem rather high to those who live nearer the sources of supply. Customers there demand first class work, want the best of stock used, and are willing to pay for it. Here are some of the prices, the figures being per thousand: Letter heads \$22.50; bill heads, 6s, \$15; bill heads, 4s, \$20; bill heads, 2s, \$30; envelopes, 48, \$17.50; 1-16 sheet dodgers. \$12.50.

There continues to be nothing but favorable news from the sick room at Buffalo, and all the world rejoices.

The falling leaves, the gathering in of the harvest of over ripe strawishats,

It is quite possible that the effortito try and remember how to spell his own name may have unhinged the mind of Mr. Czolgosz, and made him ripe meat for receiving the teachings of anarchy reduced to practice.

Czolgosz is apparently a living example of the danger there is in preaching red hot doctrines of class hatred into the ears of an indiscriminate audience. Some take such doctrines theoretically; others as a behest to go out and commit murder.
