A SERIOUS TIME.

A QUEBEC FARMER SUFFERED FOR NEARLY TEN YEARS.

Had the Best of Medical Treatment, and Tried Hot Springs Without Receiving Benefit—Dr. Williams' Pink Pills Cured Him.

Mr John Story, of Maryland, Pontiac Co., Que., is well known to all the residents of that section, and his case from an unusually severe attack of rheumatism, by the use of Dr. Williams' Pink Pills, after all other remedies had failed, has, if possible, added to the popularity of this favorite medicine. Mr Story gives the following statement of his suffering and cure. He says: "Some ten years ago I was engaged in railroading on the Lake Superior section of the C. P. R. I was exposed to all kinds of weather, and as a result sustained a severe attack of rheumatism, which all but crippled me, and from which I suffered much agony. I spent more than a hundred dollars on doctors and for medicine, but was gradually getting worse and finally had to quit work. At this juncture the doctor told me that he did not think medicine could cure me, and advised me to go to some hot springs. I took his advice and went to the Harrison Hot Springs, in British Columbia, where I remained for eight weeks under the care of the house physician, but experienced no benefit. I then went over to Tacoma, and took a course at the Green River Hot Springs, but with no better result. Completely discouraged I returned to my home in Quebec, and went to farming, but the rheumatism bothered me so much that I could scarcely do my work. Dr. Williams' Pink Pills were recommended to me and I decided to give them a trial. After taking a few boxes I found they were helping me and I continued their use until I had taken sixteen boxes, by which time every vestige of the trouble which had bothered me for years, and had cost me so much money, had disappeared. It is now much more than a year and a half since I discontinued the use of the pills and during that time I have not had the slightest symptoms of the trouble, which I regard as the very best evidence that the cure is permanent."

Dr. Williams' Pink Pills are a specific for all diseases arising from an impoverished condition of the blood or a shattered condition of the nervous forces, such as St. Vitus' dance, locomotor ataxia, rheumatism, paralysis, sciatica, the after effects of la grippe, loss of appetite, headache, chronic erysipelas, dizziness, scrofula, etc. They are also a specific for the troubles peculiar to the female system, correcting irregularities, suppressions, and all forms of female weakness, building anew the blood and restoring the glow of health to pale and sallow cheeks. In the case of men they effect a radical cure in all cases arising from mental worry, overwork or excesses of any nature.

Protect yourself against imitations by insisting that every box you purchase bears the full name Dr. Williams' Pink Pills for Pale People. If your dealer does not have them they will be sent, post paid, at 50 cents a box or six boxes for $2.50, by addressing the Dr. Williams Medicine Co., Brockville, Ont.

Beet Sugar Industry.

Dr. Sproule, than whom there is not a more fluent speaker or conscientious worker in the House of Commons, proposes protection to the sugar beet industry in the following resolution, of which he has given notice, but which it is not very probable the government will adopt: "That having regard to the large importations of sugar into Canada for home consumption, amounting to 239,670,008 pounds in the year 1898, at a cost of $4,868,956, and that it has been demonstrated beyond a doubt that the cultivation of the sugar beet in the Dominion is not only possible, but is being successfully grown in many parts of the country at present; therefore, in the opinion of this House, in order to stimulate the farmers in Canada to engage in the growth of this valuable product, and so to encourage the establishment of beet root sugar factories a bounty should be offered for all beet root sugar manufactured in the Dominion during the next ten years, and that the necessary machinery for such plant, not made in Canada, be admitted free of duty."

Without a Rival.

Paine's Celery Compound as a Blood Purifier and Health Giver ranks first in every civilized land.

Professional men, members of parliament, bankers, business men, mechanics and our farmers, after happy results and experiences with Paine's Celery Compound, emphatically assert the great medicine has no rival.

As a blood purifier, disease banisher and health giver, it has won the admiration and praise of those in position and affluence, and people in humbler circumstances have largely added to its extended reputation.

The vast army of sick and weakly people restored to health and vigor by Paine's Celery Compound have done more for the present world-wide sale of the great health-builder than all the press notices ever published.

Under such happy auspices, the proprietors of Paine's Celery Compound with full and honest confidence urge the use of this noblest and best of medicines at this present season.

The work of purifying the blood, cleansing the system, regulating the nerves, is an imperative one, and should not be delayed a moment, if ailing people would have perfect health.

Men and women distressed by headache, nervousness, sleeplessness, dyspepsia, neuralgia, rheumatism and liver and kidney complaint, cannot afford to treat their troubles with indifference. Serious and fatal results follow delays. This is the time for the taking on of new strength and true vitality, and Paine's Celery Compound will never disappoint the sick and afflicted.

The old motto of Paine's Celery Compound "Makes sick people well," is as true to-day as it was years ago.

THE WHITE RIBBON.

"For God and Home and Native Land."

Conducted by the Ladies of the W. C. T. U.

OFFICERS.

President—Mrs Trotter.
Vice-Presidents—Mrs Hemmeon, Mrs Chambers.
Vice-Pres. at Large—Mrs Jobes.

...Next meeting in Temperance Hall, Thursday, June 8th, at 3.30 P. M. The meetings are always open to any who wish to become members. Visiting members of other W. C. T. Unions are cordially welcomed.

Workmen of God, Oh lose not heart!
But learn what God is like;
And in the darkest battle-field
Thou shalt know where to strike.

Thrice blest is he to whom is given,
The instinct that can tell,
That God is on the field, when He
Is most invisible.

Then learn to scorn the praise of men,
And learn to lose with God;
For Jesus won the world thro' shame,
And beckons thee that road.

—*Faber.*

Temperance Her Life-Work.

It is doubtful if even the late Frances Willard travelled so many hundreds of thousands of miles or addressed more audiences than have been addressed by Mrs Mary H. Hunt, during the eighteen years in which she has been engaged in the work of securing compulsory temperance education laws in the United States. Mrs Hunt is National and International Superintendent of the Department of Scientific Temperance Instruction, and Life Director of the National Education Association. Through her persistent and untiring efforts, every State—excepting Utah, Arkansas, Virginia and Georgia—has on its statute book laws regarding scientific temperance education in the public schools.

In 1886, Mrs Hunt, after months of effort, secured the passage of a national temperance education law for schools under Federal control. Mrs Hunt has also secured the passage of these laws in Nova Scotia and New Brunswick. She has addressed the legislatures of nearly every State and Territory in the Union, being an eloquent and forceful speaker.

She employs at her home in Boston from six to nine secretaries and stenographers. She travels thousands of miles every year perfecting and strengthening her work. Her efforts have resulted in legislative enactments in forty-one States and the National Congress, making physiological temperance a compulsory study for more than 16,000,000 children of school age. Mrs Hunt says of these children:

What shall be taught them is a question fraught with destiny to the individual, family and social life of our people and to the Republic itself. A self governing people must be a sober people. Alcohol is a brain poison. In the nature of things, either the saloon or the Republic must perish. To falter in the demand that the utmost truth against alcoholic drinks and other narcotics shall be taught would be more than sinful. Except to the eye of faith, this struggle for the truth has seemed an unequal contest, but the God of Nations has been guiding.—*Christian Herald.*

[It will be remembered by many that Mrs Hunt lectured in College Hall, Wolfville, a few years ago in the interest of scientific temperance instruction in the public schools.]

The Curse of the Nation.

The civilized nations of the earth are putting cause and effect together on the alcohol question as never before. In France, Switzerland and Belgium the increasing use of alcohol is recognized as the cause of a physical decline in stature that is filling those nations with alarm for their future. Close investigation is proving to the Kaiser that the beer drinking soldier has only about 30 per cent. of the endurance of the total abstainer, and economists are calling attention to the bad effects that increasing drink habits are having upon German industries. The young Czar of Russia, alarmed at the inroads which he sees alcohol making upon his army and people, is striving to stem the tide.

Thoughtful Englishmen are saying that Britain's greatest enemy is alcohol. In our own country its effects upon our soldiers in home camps, and on the field have been made sadly evident to the American people. The truth against alcohol is out. Everything that its advocates can say in its favour is controverted by the strongest scientific authorities of the world, who pronounce it a poison—the genius of degeneracy. Nothing can hide this truth from the people and their children whose heritage it is.—*Mary H. Hunt.*

For The Birds.

At the recent annual convention, in New York City, of the Audubon Society, the voices of many prominent and eminently practical people were raised in protest against the wholesale slaughter of birds. Many species, valuable for song and beauty, and for usefulness in protection of crops from insects, have become extinct; and the destruction of others seems impending. One speaker said: 'I beg all women and girls not to wear birds and birds' feathers on their hats any more.' This appears really the one way in which to save the birds, and recently an association of ladies made themselves auxilliary to the Audubon by introducing resolutions to this end. As long as killing our winged friends is profitable, the woodland singers and the insect-eaters will be slain. A very eloquent letter from Governor Roosevelt, in which he expressed his hearty sympathy with the society's efforts for the protection of birds and his appreciation of the importance of such efforts, was read.

I am glad to think that I am not bound to make the world go right, but only to discover and do with cheerful heart the work that God appoints.—*Jean Ingelow.*

Unbelief.

There is no unbelief.
Whoever plants a seed beneath the sod
And waits to see it push away the clod
He trusts in God.

Whoever says when clouds are in the sky,
"Be patient, heart, light breaketh by and by,"
Trusts the Most High.

Whoever sees 'neath Winter's frost of snow
The silent harvest of the future grow,
God's power must know.

Whoever lies down on his couch to sleep
Content to lock each sense in slumber deep,
Knows God will keep.

Whoever says "to-morrow," the "unknown,"
"The future," trusts the Power alone,
He dared disown.

The heart that looks on when eyelids close,
And dares to live when life has only woes,
God's comfort knows.

There is no unbelief.
And day by day and night, unconsciously,
The heart lives by that faith the lips deny.
God knoweth why.

Scraps for Odd Moments.

Every time the weather has a cold it takes a drop of mercury for it.

The moralizer considers life but a dream until the demoralizer comes along and wakes him up.

She—"You say you met your friend accidentally?" He—"Yes; I fell in with him while skating."

When you see a five-year-old boy with curls and sash it is safe to say that the father does not boss in that family.

Minards Liniment cures Burns, etc.

"How old are you, little girl?" asked the kind lady of a three-year-old.

"I'm not old at all," was the reply; "I's most new."

"My son follows the medical profession."

"Where did he study medicine?"

"Oh, he isn't a doctor; he's an undertaker."

Sympathetic Curate—My poor man! You must indeed have gone through severe trials.

Vagabond—Right you are, sir! An' worse still—I always got convicted.

The Lady—You'll have to take back that parrot. He swears.

The Dealer—He only swears in German.

The Lady—But I don't understand German.

"This really pains me, Willie," said the old gentleman, as he picked the boy up and laid him across his knee.

"Well," replied the boy, resignedly, "at least I've never been fool enough to deliberately hurt myself."

Mrs Newlywed—We are going to name our new baby after you, Uncle Josh!

Rich Uncle—That's a good idea; he'll have to start out in life without a cent, jus' the same as I did!

Mrs Hammond—Mrs Hasheraft has brauged again to-day about keeping her boarders so long.

Mrs Fotheweek—She doesn't really keep them long. She keeps them so thin that they look longer than they actually are.

Mrs Crimsonbeak—I wonder what will be the prevailing color of girls' waists this season?

Mr Crimsonbeak—Well, if they keep on lacing as tight as usual, I think it would be a safe gamble to say that they will be black and blue.

Minards Liniment Relieves Neuralgia.

Perkins (facetiously)—That is a picture of my wife's first husband.

Smith—What a brainless looking ass! But I didn't know your wife was married before she met you.

"She wasn't. That is a picture of myself at the age of twenty."

Advertising is an art; it is simply telling by other means means than the tongue; and in the present day of push the merchant who knows best how to tell is usually the one who knows best how to sell. Just glance at the ads. of successful merchants in this paper and see how it is done.

Anxious Mother—I wish, Susan, that when you give baby a bath you would use the thermometer so as to ascertain whether the water is at the proper temperature.

Susan—Oh, don't worrit about that, ma'am; I don't need no 'mometers. If the little 'un turns red, the water's too hot: if it turns blue it's too cold; and that's all there is about it.

Three men sat over the edges of a fire in the gray light of a winter's dawn. On the table behind them were many empty whiskey bottles and a couple of packs of cards. As they sat in silence a rat scurried across the hearth into the darkness beyond. The three men shifted their feet and looked at each other uneasily. After a long pause the man in the middle spoke, "I know what you fellers are thinkin'," he said, "you think I thought I saw a rat. I didn't."

Alfred A. Taylor, of Margaree, says: "One bottle MINARD'S LINIMENT cured a swelling of the gamble joint, and saved a horse worth $140.00."

Thos. W. Payne, of Bathurst, saved the life of a valuable horse that the Vet. had given up, with a few bottles of MINARD'S LINIMENT.

Clerical gentlemen who act as presiding officers now and then make queer slips. The Homiletic Review quotes an instance. At the close of the forenoon session of a ministerial conference, in announcing the opening subject for the afternoon session, the presiding officer stated that Elder H— would present a paper on "The Devil," and added: "Please be prompt in attendance, for Brother H— has a carefully prepared paper and is full of his subject." Imagine his chagrin when an uproar of laughter reminded him of the unhappy witticism he had blundered into.

1898. THE 1898.

Yarmouth Steamship Co.
(LIMITED)

The Shortest and Best Route between Nova Scotia and the United States.

THE QUICKEST TIME,
10 to 17 hours between Yarmouth and Boston!

2 - TRIPS A WEEK - 2
