The Hon. Peter Mitchell. is running strongly in the direction a well cooked and satisfactory meal. to return Mr. Mitchell for his old strangers than usual during the past constituency again. The people be- summer, so much so indeed that the prothem no such service as a live, part which is now being built, is 25x38 | Compared with 1880 the shipments for the councils and history of the country during his administration of the Department then under his control.

The councils and history of the country during his administration of the Department then under his control.

The councils and history of the country during his administration of the Department then under his control.

The councils and history of the country during his administration of the makes connections with all the regular line as signt increase in the quantity of deals and palings shipped as compared with the previous year, there was a small falling off as regards timber, at the further difference in favor of 1880 between the pared with the previous year, there was a small falling off as regards timber. I. C. R. trains, and who is ready at all the reference in favor of 1880 between the pared with the previous year, there was a small falling off as regards timber. It is now \$114,440.93, as compared with the previous year, there was a small falling off as regards timber. It is now \$124,440.93, as compared with the previous year, there was a small falling off as regards timber. It is now \$124,440.93, as compared with the previous year, there was a small falling off as regards timber. It is now \$124,440.93, as compared with the previous year, there was a small falling off as regards timber. It is now \$124,440.93, as compared with the previous year, there was a small falling off as regards timber. It is now \$124,440.93, as compared with \$62,024.43 and of last year, an increase of \$52,416.50. This is, certainly, a very satisfactory exhibit." It may be truly stated, and we challenge contradiction, that no Minister of the Crown ever threw so much energy, and did so much good in the important Department of Marine and Fisheries under his of Marine and Fisheries under his of Marine and Fisheries under his of Marine and Fisheries. The Ministers of the Country of the Crown ever threw so much energy, and did so much energy, and did so much energy and did so much sleigh making. He now owns a large shop, 30x40, two stories, the lower part of Marine and Fisheries under his being used by the wood workers, and the 4243 tons square timber.

I. C. R. trains, and who is ready at all times to furnish sportsmen, tourists and other with teams, when required.

When the further difference in favor of 1880 being made up by the shipment of hard-wood plank and shingles, of which there were none shipped in 1881. As comparate were none shipped in 1881 show an increase of 7 vessels, 7644 tons, 6,389, and increase of 7 vessels, 7644 tons, 6,389, shop, 30x40, two stories, the lower part of the Liberal-Conservation in grade up by the shipment of hard-wood plank and shingles, of which there were none shipped in 1881. As comparate were none shipped in 1881 show an increase of 7 vessels, 7644 tons, 6,389, shop, 30x40, two stories, the lower part of the Liberal-Conservation for the limes to furnish sportsmen, tourists and the further difference in favor of 1880 because when the great Liberal-Conservation in grade up by the shipment of hard-wood plank and shingles, of which there were none shipped in 1881. As comparate were none shipped in 1881 show an increase of 7 vessels, 7644 tons, 6,389, shop, 30x40, two stories, the lower part in the further difference in favor of 1880 because when the great Liberal-Conservation barden in grade up by the shipment of hard-wood plank and shingles, of which there were none shipped in 1881. As comparate were none shipped in 1881 show an increase of 7 vessels, 7644 tons, 6,389, shop, 30x40, two stories, the lower part in 1881 show and increase of 7 government, as Mr. Mitchell. The upper by the painters. The blacksmith was lit up like the Broadway of a city. The result is that collisions are rarely known, and the travelling public feel an amount of protection that makes it a pleasure instead ofas once—a terror, to find themselves on our noble river. The Statute book, too, speaks well of the activity at all times displayed on questions affecting matters under his control. The country wants a man at the head of the Marine Department with as once—a terror, to find themselves ft. post. Cost about \$600, Mr. F. St. The country wants a man at the head of the Marine Department with nerve enough, vigor enough and insize of the building is 80x40. The maRed Pine, situate about three quarters of a mile from the I. C. R. station. The River and Armstrong's Brook are suffidependence enough to have these old boats, so often alluded to, inspected—boats, so often alluded to, inspected—to whose rotten timbers hundreds of lives are still entrusted—a subject strongly discussed in vain of late.

Since the London disaster, in which dependence enough to have these old chinery, which is not quite new, was ciently frozen to allow the young folks to whose rotten timbers hundreds of Province. The been purchased in that to enjoy themselves skating. Since the London disaster, in which nearly four hundred souls perished, old and worthless passenger boats have been pointed out as rotten and will probably be carried by rail to while felling a tree, unfortunately let slip ter in his pocket, received that day from the unseaworthy. Some have gone have gone bathers for shipment. After a time it his axe, which descending with force president of the Company, empowering him down since, while others still creep along with their heavy freight of souls. It looks as if the Government are waiting for another fright- cess with his enterprise. ful disaster before taking action, or the pressure of some large sharehold. ers in steamship companies is too great; but, whatever the difficulty is. the ministry cannot last forever of the laurels of their Pacific Railway triumph, great as it was. The great maritime highway of the Dominion, whose tonnage is a both of the world. must have more attention. It is a field worthy of a statesman, and olthough, perhaps, Mr. Mitchell may be a little too independent to expect bis old post on his return to the Commons, yet he is the man wanted by the people to bring back the lost prestige of that Department, by whatever government may be in men of the Deanery. power, to do their duty by our great

S. S. Company. The International S. S. Company commenced the winter arrangement of two steamers per week between St. John and Boston, on Monday last.

## General Intelligence.

Irish Affairs.

London, Nov. 23. During the hunt of the Kildare Hounds three hounds ere poisoned at Sallins. The master of the hounds stopped the hant and cancelled a I fixtures for the future. A mob of 500 \*ttacked the Armagh Hunt Club at Ballymacuabo. Many horses were severely stoued. A number of Irishmen in the Town

Hall, Newcastle, last night prevented Sir Charles Dilke, M. P., from addressing his constituents, by groans

"NO BENT. The Times says:-It is only too plain that after a brief interval of hesitation a considerable section of the people of Ireland have decided to

manifesto. The plan of dealing with reca'citrant tenants, county by county, has already been adopted in Leitrim and Cavan, where two flying columns of 500 soldiers each, and police have been detailed for protecting those engaged for carrying out the law. In many places it is notorious that to pay rent at all is as dangerous as it was some time back to pay more than Griffith's valuation. The cattle of a parish priest have been mutilated because the owner denounced the Kilmainham manifesto. If we have o deal with a thoroughly disaffected. tenant farmers and their families do vertises a new importation of wool goods. out the hope of a general reduction of rents. The means at the disposal of the Government are boundless, and they are backed by the resolute spirit of the whole people of Great Britain. If the existing powers of the Executgranted. One thing only is impos-The article is based on telegrams from party into the house of Lord Bes-borough's agent at Pilltown, the house being only twenty yards from while loading boards on his truck, failed to notice the approach of a shunting engine, and was killed the last few days, incendiary fires in

> Dublin, Nov. 24 .- The Land commissioners have issued a notice calling attention to the powers they possess to hear applications seeking to compel farmers to provide better

It is stated that a farmer while returning from Skibbereen fair was fatal-Lord Lieutenant of Ireland, alluding to-day to the state of Ireland, said he had no hope that the Government would be able at present to relax the coercive measures. Lord Cowper continued: "I am afraid things do not look very bright. Dissatisfaction

and ill-feeling are deeply seated." London, Nov. 24 .- The Times commenting on Earl Cowper's speech, says: "It is far more likely that measures of coercion will have to be made more stringent than that they can be dispensed with. Even a temporary suspension of trial by jury would be condoned by public opinion ). LOGGIE, to MISS MARY B. HAMILTON, if it was shown to be necessary for the restoration of peace and order. Now that oppression and violence have been adopted as weapons by a section of Irish people, it is worth while to point out that the whole Irish people who, forty years ago, formed a third of the population of the kingdom, is now only one-seventh. The conduct of Irish, in the English towns and cities show that they sym-pathise with the course of their countrymen in Ireland, and return the feeling indicated by the above

### Perished at Sea.

London, Nov. 24 .- The iron ship Culzean" whilst being towed to the Clyde from Dundee was wrecked and

7 persons were drowned. Panama, Nov. 24 .- On the 5th inst the steamer "Albion" toundered off Point Barbaioas while on a voyage from the mouth of Sinn river to Carthagena. She had forty persons on board and a cargo valued at \$30,000. aged 13 months.
