LONDON, Jun

Prince Leopold took his seat in the of Lords to-day as Duke of Albany. A despatch from Algiers says the are murdering the Spanish resident geria. The Times says that the Marquis of tour will be watched eagerly people. A great fire occured at the Victoria in Liverpool to-night. None of the s was injured. The relations of the Porte and the embassy are still very strained in con of the Tunis affair. Latest advices from Afghanistan the condition of affairs as uncertain Ameer is regarded as too weak to pus tary operations against the insurgents. It is reported from Central Asia th bodies of Russian troops are assemb the borders of Kashgar, and that a with the Chinese cannot long be avert The Calcutta missionaries charge causing the death of a convert, and habitually beating converts, have be missed by the Criminal Courts and sted. .

PRODUCE. PRODUCE. The tendency of prices since our last has been apwards, at least on wheat and four. Holders, wever, have not been anxious to sell and hav ffered slowly, which fact has tended to check usiness, for buyers could certainly have been and during the last two or three days for a deal more than was available. It is not cerain, however, that buyers and sellers would nave been able to agree on prices, as the tendency time of late to have been towards divergence ocks in store have been somewhat on the increase and stood on Monday as follows :-Flour, 2,500 bbls.; fall wheat, 100,943 bush.; wheat, 83,867 bush.; oats, 18,743 bush. marley, 21,321 bush.; peas, 29,700 bush.; rye, 100 ng wheat, 101,929 bush.; oats, 17,030 bush.; barley, 2.556 bush.; peas, 1.531 bush., and rve, nil ush. Crop advices seem to indicate that the effects of the frost last week, though undoubtedly nischievous, were much less so than was at first anticipated, and that we may still hope for a good harvest; in some districts to the east the prospect is said to be unprecedentedly fine. Out-side advices show in English markets an advance during the week, of 2d. on red, and 1d. on red winter and white wheat, with 1d. on corn. Markets have been decidedly firmer; reports to-day quote both Mark Lane and the country parkets firmer, and cargoes up 3d. to 6d. per quarter; and this, after a similar report on both Monday and Tuesday. The same tendency was felt in the latter part of last week, when millers showed rather an improved disposition to buy. Home deliveries were small ; but there was an increase in imports last week, showing an in crease on the total supply. Imports last week amounted to 295,000 to 300,000 guarters of wheat nd 165,000 to 170,000 bbls of flour, and home deliveries to 87,324 quarters, making a total supply equal to 475,136 to 482,949 quarters of wheat, an average weekly consumption of 454.000 quarters. The quantity of wheat and in transit on the 9th inst. was 2,125,000 quarters, against 2,201,000 quarters on the 2nd inst., and 2,094,000 the corresponding date last year. Continental advices for the week ending May 8, state that in France wheat was quiet, and until the close of the week showed a drooping an the close of the week showed a drooping tendency, owing probably to the unremunerative prices ruling for flour. Supplies of home-grown seem to have continued small. Reports from 75 markets showed 10 dearer; 11 firm; 37 un-changed; 3 quiet, and 15 lower; against, in the preceding week, 2 dearer; 10 firm; 36 unchanged; 9 quiet, and 21 lower. Imports were rather 9 quiet, and 21 lower. Imports were rather smaller than in the preceding week; but the last reported passings of wheat cargoes at the Dar-danelles were more numerous. Business in for-eign wheat was very quiet, but prices varied but little. The total arrivals in the 6 principal ports amounted to 31.000 grs, regains 160.000 grs. in the previous week. This brings up the total since August 1st, 1880, to about 5.570,000 quarters. At Marseilles stocks in the docks decreased At Marseilles stocks in the docks decreased to 66,000 quarters. Paris and country markets reported by telegraph closed with rather an improved feeling. In Belgium a quiet ut steaday market was reported for wheat, bu rye very firm. In Germany the "term" markets were improving for both wheat and rye, prices at Berlin and Hamburg closing rather higher on the week. At Berlin last week, wheat did not vary materially, but the spring "term" was especially very firm. Hamburg closed firm with offerings seat, small and red winter quoted at 48s. to if wheat small and red winter quoted at 48s. to 10s. per quarter. In Hungary both wheat and four were slack. In Roumania the export de-mand had improved. Crop advices from conti-sental Europe state that in France prospects for wheat were good; in Germany the crops are all extremely backward, and endangered to a cer-ian extent by the continued absence of rain-both the wheat and rye crops were complained of; in Austro-Hungary advices were generally extended. But in Russia official reports represent symptote almost everywhere in the cis almost everywhere in the

terday cars were offered at 39c., with 33c. bid. Street prices, 40 to 41c. BARLEY-Inactive at almost nominal prices; the only sale reported is that of a lot, by sample, at 67c. f.o.c. There are no buyers in the market, but sellers in abundance, though quotations must be taken as nominal. Street receipts, nil. PEAS-Have been quiet but steady, with very few offering. No. 1 sold last week at 75c., and No. 2 brought 74c. t.o.c. on Tuesday, which prices would probably have been repeated yesterday. Street receipts nil. HAX-Pressed has remained dull and inactive at nominally anchanged prices. Receipts on the market have decreased, and prices have been firmer at \$8 to \$11, with the great bulk going about \$10 yesterday. The second secon FLOUR, F.O.C.
