day night was good, the hall being
about filled, and the performance
was of a very high order.

SEVEN YEARS TORTURE

Nothing Helped Him Until He Took
"FRUIT-A-TIVES"

ALBERT VARNER
Buckingham, Que., May 3rd, 1915.
For seven years, I suffered terribly
from Severe Headaches and Indigestion.
I had belching gas from the stomach,
bitter stuff would come up into my
mouth after eating, while at times I had
nausea and vomiting, and had chronic
constipation. I went to several doctors
and wrote to a specialist in Boston but
without benefit. I tried many remedies
but nothing did me good. Finally, a
friend advised "Fruit-a-tives". I took
this grand fruit medicine and it made
me well. I am grateful to "Fruit-a-
tives", and to everyone who has mis-
erable health with Constipation and In-
digestion and Bad Stomach, I say take
"Fruit-a-tives", and you will get well".

An Ounce of Prevention

Dr. Brown was a phlegmatic man
who usually took his own time at an-
swering even urgent calls, but one day
he bustled around in a great hurry.
"Mrs. Weaver has sent for me to
come and see her boy, and I must go
at once," he said.
"What is the matter with the boy?"
asked the doctor's wife.
"I don't know," he said, "but Mrs.
Weaver has a book on 'What to Do
Before the Doctor Comes,' and I must
hurry up before she does it."

A Bear's Capacity

A visitor to a Sunday School was
asked to address a few remarks to the
children. He took the familiar theme
of the children who mocked Elisha
on his journey to Bethel—how the
young ones taunted the prophet, and
how they were punished when two she-
bears came out of the wood and ate
forty-and-two of them.
"And now, children," said he, "what
does this story show?"
"Please, sir," came from a little girl
in the front row, "it shows how many
children two she-bears can hold!"

A Thrilling Experience

Capt. W. T. MacFarlane Writes
of Having His Tent Blown
From Over Him.

Capt. W. T. MacFarlane, son of In-
spector P. G. MacFarlane, of Nor-
umberland and Gloucester counties,
writes home, as follows, concerning
a very narrow escape in France:
France, 5-5-17

Dear Mother:
I had an interesting experience the
other night. Just after I went to bed
and when Capt. Scott was going to
bed I heard an enemy naval gun fire
and the shell sounded to be going
over, so half awake as I was for a
second, I forgot all about it but only
for a second. Believe me the shell
went right through our tent and never
touched either of us. It detonated
about ten feet from my head. I was
dazed for a few seconds. The noise
of the explosion was terrific for it
was a six inch shell. I was covered
with dirt, etc., which came down in
clumps. You should see the crater.
The shell penetrated the earth about
four feet before detonating. Capt.
Scott was tossed up in the air and
his bed broken. When the row sub-
sided I looked across the tent space
and beheld the moon was staring me
in the face. The tent had been blown
to bits and disappeared. Evidently
the time of miracles is not over yet.
But why should you worry? Some
guardian angel is taking care of me.
If all goes well, here's hoping we'll
be home yet this year.
Your son,
W. T.

First Self-Government

The first attempt of government by
the people begun in America was in
1619, when Sir George Yeardley was
sent from England as Governor of the
Jamestown colony. His charter pro-
vided that he should call a few chosen
men, two from each of the eleven bor-
oughs that constituted the colony.
The meeting, which was known as
the assembly, was held at the church,
with the Governor and his Council
presiding. Those who came from the
boroughs were called burgesses, and
the assembly, which met every year,
was styled the House of Burgesses.
At this period this was the only Eng-
lish colony in America.

For the Motorist

If the marks on the positive and
negative terminals of your storage bat-
tery become obscure it is an easy
matter to identify them. Take a glass
of water and add a pinch of salt, or
about a teaspoonful of electrolyte.
Run a wire from each battery ter-
minal into the water, being careful
that the wires do not touch each other.
Bubbles will appear on the negative
wire. Then mark a deep plug in
the case near the positive terminal.

Still the Nation's Hope

It is as a community center that
the little old red school house is to
attain again its high place in the
national life of any agricultural coun-
try. In it the teacher of the Three
R's can also be the teacher of hus-
bandry and patriotism and co-opera-
tion. The rural public school belongs
increasingly to old and young.
