RADIO

Number of Radio Stations Will Have To Be Decreased

The time is coming when radio listeners-in will demand the suppression and elimination of many of the broadcasting stations now in operation on the North American Continent, especially in the United States. At present there are far too many stations in the broadcasting business, (566) in the United States and 66 in Canada), and far too many on the air at the same time. On the other side of the boundary line new stations are coming into existance every day. More than 560 are now in operation and the erection of many more is under way in order to make room for the new stations metre wave lengths have been arranged that show but a fractional difference between them the result has been that three or more stations, very frequently come in together, blurring the reception.

Present day interference is caused not so much by static as by congestion. This is proved by the fact that in this part of Canada the best reception is obtained after one o'clock in the morning, when there are fewer stations on the air. Very selective receiving sets are needed in the early part of each evening to catch and hold a variety of programs.

Not so many broadcasts and more widely separated wave lengths would be much better. If a Radio listener were to tune in on one hundred programs a night he would have time for catching nothing but the announcements. There is no need for more than twenty five programs nightly. With that number and a more widely diverging wave length than is being used at this time programs would come in loud and clear on the inexpensive as well as the expensive sets. Radio is a blessing in many homes. It keeps the young folks home at night provides endless entertainment for countless married people who cannot get away from home because of small children and it cheers the aged and infirm. It should not become solely a rich man's diverson.

COUNTRY MARKET

The Fredericton Market Saturday morning was a large one, notwithstanding the storm prevailing. Maple honey and maple sugar made their first appearance this season. The honey sold at 60 cents per bottle and the sugar at 40 cents per pound. Prevailing prices were as follows:

Maple honey, per bottle 60 cents
Maple sugar, per pound 40 cents
Eggs, per dozen, 30 to 35 cents.
Butter, per pound, 35 cents.
Chickens, per pound, 35 cents.
Beef, per pound, 7 to 9 cents.
Pork, per pound ,13 to 15 cents.
Lamb, per pound 15 to 20 cents.
Veal, per pound 7 to 14 cents.
Potatoes ,per barrel $1.25
Turnips ,per barrel, 70 cents.

Now They Are Spending Five Months in Jail

Bloomfield, Mo., March 15— A love tangle in which two young farmers traded wives has just come to light here. The two couples involved have just been sentenced to five months in jail each. They are Mr. and Mrs. Art Wallace and Mr. and Mrs. Otis Cravens.

Wallace, twenty-seven ,and his wife, Cora, twenty-four, were married seven years ago. They have three children, ranging in age from six to two years. Cravens, thirty, and his wife, Nellie, twenty-two, were married eight years ago, and have two children.

"We just lost our hearts for each other." Cravens declared. "I fell in love with Cora and Art found that he loved Nellie. The two women decided their love for the other had developed and they no longer cared for their real husbands .We were just mismated."

The married life of both couples was said to have been happy, at least until the two families acquainted a year ago. Then as the women became close friends and the men real "buddies" conditions changed.

The decision to trade wives was made Feb. 2 ,the couples said, adding they didn't think it was anybody's business but their own.

When the trade was arranged both couples sent their children to the homes of their respective grand parents.

No Arrangement To Take Over The N. B. Railway

No agreement has been reached so far between the Dominion where by the former will take over the St. John and Quebec Railway the Minister of Railways informed R. B. Hanson. (York;Sunbury); in the House of Commons recently. Mr. Hanson's question was prompted by an intimation contained in the Speech from the Throne at the opening of the New Brunswick legislature.

COAL ESTIMATE OF RESERVE

Halifax, March 16—Of the 4,448,188 tons of the coal in Nova Scotia during the year ending Sept. 30, 1924, according to official figures just issued, the largest buyer was Nova Scitia, which took 1,782,413 tons; Quebec took 1,570,733 tons, and Ontario 30. New Brunswick bought 529,872 tons and 209,230 tons went to Newfoundland. United States took 5,706 tons, as compared with 278,979 tons the previous year, and 308,754 in 1922 .European buyers took 37,764 tons, a little more than half the previous year's sales to those countries ,and 220,633 tons were sold to vessels for bunker.

The total sales was a million tons less than the previous year, and half a million greater than in 1922.

The coal sale records go back to 1922 when the total sales were 1,668 tons. The total sales from that year to 1924 inclusive, were 172,330,866 tons, and experts say there is no sign of the supply giving out .The actual reserve tonnage as estimated by experts, is 2,188,151,000,000, and the probable reserve 9,718,968,000,000 tons.

Pedanty crams our heads with learned lumber, and takes out our brains to make room for it.

A Reliable Tonic For Springtime

Dr. Williams' Pink Pills Give New Health and Vigor

Not sick—but not feeling quite well This is the way most people feel in the spring. Easily tired, appetite fickle, sometimes headaches and a feeling of depression. Pimples or eruptions may appear on the skin, or there may be twinges of rheumatism or neuralgia. Any of these indicate that the blood is out of order—that the indoor life of winter has left its mark upon you and may easily develop into more serious troubld.

Do not dose yourself with purgatives as many people do, in the hope that you can put your blood right. Purgatives gallop through the system and weaken instead of giving strength. Any doctor will tell you that this is true. What you need in the spring is a tonic that will enrich the blood and build up the nerves. Dr. Williams' Pink Pills do this speedily, safely and surely. Every dose of this medicine helps to enrich the blood, which clears the skin, strengthens the appetite and makes tired, depressed men, women and children bright, active and strong

Proof of the value of Dr. Williams' Pink Pills when the system is run down is shown by the case of Mrs. Lillian Lewis South Ohio, N. S., who says: "About a year ago I was badly run down. My appetite was poor, I did not sleep well and my nerves were all unstruug. I could not go upstairs without stopping to rest. As I was a long way from a doctor I decided to take Dr. Williams' Pink Pills, and in the course of a few weeks I felt like a new person. As an all around restorative I can heartily recommend this medicine."

You can get these pills through any medicine dealer or by mail at 50 cents a box from The Dr. Williams' Medicine Co. Brockville, Ont.

LUMBER CUT IN 1924 EXCEEDED THE ESTIMATES

The 1924 timber cut on Crown Land in New Brunswick was 362,363,895 superficial feet, exceeding the estimate by about twelve million superficial feet, according to the annual report of the Department of Lands and Mines, which was tabled in the Legislature.

Twenty-seven per cent. of this amount or 98,383 680 feet, consisted of fire-killed spruce, pine, cedar and fir, while 20 per cent. of the total cut consisted of budworm-killed spruce and fir. The salvage of these two classes of defective timber at reduced stumpage rates thus amounted to 47.1 per cent., or almost half of the total cut.

In the report G. H. Prince, Acting Deputy Minister, states that it is doubtful if the season's cut for 1624-25 will, in view of the depression in the lumber market, amount to more than 65 per cent of that of 1923-24. Owing to the ravages of the bark beetle in the fire-killed areas of 1923, it is anticipated that there will be less fire-killed timber salvaged for saw timber this year, although quantities will be utilized for lath and pulpwood wherever possible.

The New Ensemble Suit
AT CREAGHANS

Your problem of dress is solved in these charming ensemble suits. They can be worn as a separate dress, a suit or a separate coat. There are some beautiful exclusive models on display at Creaghans.
