When considering the purchase of a Piano it is better to be guided by the testimony of the world's greatest artists and our own leading musicians than by extravagant advertising claims.

The Reputation of the **CHAPPELL PIANO** is world wide.

Some of the earliest instruments imported into this country were Chappell's, and after sixty years' service are still in use. There is one in the city to-day over 100 years old with traces of its original beautiful tone still strongly in evidence.

The wearing qualities of the Chappell Piano testify to the absolute superiority of English workmanship.
