The number TWO looks big to us this month. It stands for our second anniversary and it represents two big years of hard work and ex-

Of course we are happy. There is no greater joy than the joy of work well done—nothing surpasses the inner satisfaction which follows actual accomplishment.

Happiness and gratitude go hand in hand, We thank all our friends for their patronage and friendship.

At top of this ad. we have spread three words which we might call the "Big Three" of Johnson Success. They are Cleanliness, Quality and Service, and our friends can count upon us to keep these ideals always in mind so that each new anniversary will show continued progress toward our chosen ideal of "Good Service to the Buying Public."

We're off to make the third year a record breaker for ourselves and for you.

Like all good business men we want to exceed past achievements, and we intend to do it by using the good old-fashioned plan of giving better service to the Buying Public.

That has always been our idea. To keep on doing things better and better day after day. It is on that basis we are building our business and it's a plan that benefits everybody concerned including all those who do business with us.

So here's the slogan for our third year:

It is said by the Journal that the clerk is taking with him radiograms which the Roumanian delegation is reported to have sent from Paris to the Roumanian Government within the last two weeks, but none of which reached their destination. As to the new Allied note, the Journal says that it declares that the peace conference considers Roumania as a faithful friend and expresses the wish that its Government may not detach itself from the body. The Allies request an explanation on various points, and ask that Roumania evacuate Hungary speedily and meanwhile cease requisitioning supplies while putting material already at the Allies' disposal for the purpose of making just division of it amongst various nations with claims against Hungary. The note is said to end by asking Roumania to co-operate with the Allies in re-establishing order in Hungary.
