"WHOA!"

Notes and Queries.

The word whoa!-used in calling on

a horse to stop—is merely a variant and emphatic form of ho! cormerly

used in the same sense. This is eas-

ily proved; for Chaucer has ho in the sense of "halt," ("Can Tales," B 3,957). When King Edward IV. had to use

this exclamation, he actually turned it into whoo! "Then the kyng, per-

ceyving the cruell assaile (onset), cast his staff, and with high voice cried

TORONTO.

Toronto, July 31.—Receipts at the Toronto cattle market today were heavy—82 cars, including 2,057 sheep and lambs, 606 hogs and 84 calves. Prices, with the exception of those for hogs, were weak. Export cattle were in fair demand; prices ruled at \$3 25 to \$3 60 per cwt; higher price for best, but the quality of offerings was not as good as desired. Butchers' cattle were in better demand. There was better buying for Montreal, 20 cars being taken for that market. An order was in the market official. -Mr. J. A. Nelles, secretary of the Board of Trade, has received a circular from Mr. E. A. Wills, secretary of the Toronto Board of Trade, inviting members of the London Board to join in an excursion to the Kootenbetter buying for Montreal, 20 cars being taken for that market. An order was in the market for two cars for St. John, N.B., but the quality of the cattle offered was not considered good enough, and the order was not filled. The buyer in this case was willing to pay 4½c to 4½c per lb. Best cattle sold at 2½c to 3c per lb, and common to medium at 2c to 2½c. Bulls were steady; good bulls are wanted. Mr. Wm. Armstrong, of London, Eade Chief Train Dispatcher-New Train Master at Stratford

Mr. Wm. Armstrong, of London, has been appointed chief train dispatcher of the 15th, 16th, 17th, 18th, 19th and 24th districts of the Grand Trunk Railway. This announcement is made in a cir-

cular signed by Assistant Superintendent Jones, of this city. Another circular also announces the appointment of Mr. F. L. Ferriton as train master of the 20th, 21st and 22nd districts, which include the Buffalo and Goderich and other lines north of Stratford. Mr. Ferriton has been conpected with the Omaha and Missouri Railroads. He will have headquarters

at Stratford. Mr. Armstrong's promotion will be learned with great pleasure by his hatch a week or ten days after the friends generally, and the railroad community in particular. another Delay in the Vanderbilt-Wilson Wedding.

New York, Aug. 1.—The Vanderbilt-Wilson wedding was reported this morning as off again. Now the hitch is said to be over a pastor to marry them. Rev. Dr. John Brown of St. Thomas Church, is sick, and Rev. John Hall happens to be at the Lakes of Killarney for his health. All the Wilsons came to town yesterday for the wedding.

Yesterday afternoon young Vanderbilt called to see Dr. Depew at his office, but he was out. He was said to be out of town. In a nervous way young Vanderbilt went around among the clerks of the New York Central office, bidding them good-bye, and then disappeared in the direction of the Wilson house. It is still believed by many that the wedding will come off some time today.

C. P. R. CHANGE. Montreal, Que., Aug. 1.-The C. P. R. has issued the following circular: "Mr. H. B. Spencer, assistant superintendent at Ottawa, having resigned, Mr. J. E. Robillard will, from Aug. 1. and until further notice, perform the duties of assistant superintendent in his place. C. W. SPENCER."

FAILED TO GET HIM. Chatham, Ont., Aug. 1.-High Con stable Coogan has returned from the chase after John Munda, the Toledo wife murderer. He says the posse surrounded the house of the murderer's brother-in-law, Wm. Barker, at Palmyra. Coogan entered and made a thorough search, but his man was no there. It is thought he got wind of the pursuit and fled. Chief Raitz returned to Toledo and Detective Campau to Windsor. They believe the capture of Munda is a question of only a short time.

BELMONT.

Belmont, July 30 -The missionary meeting of the Salem Epworth League was held on Tuesday evening. The programme was furnished by the Wo-To be Issued to Employes as Rewards given, after which Miss A. McLennan read a very interesting paper on David Livingstone, the African explorer. It was an excellent sketch of his life and work. Mr. Thompson also spoke of the great work which Drummond found upon following Livingstone, after which the meeting was closed by the pastor.

A COMBINATION DISTURBED SWORN STATEMENT MADE.

Charles E. Newman, 13 Marlborough street, Toronto, Ont., had a complica-tion of blood troubles, rheumatism, severe kidney trouble and constipation. Was frequentlyy disturbed at night, lost his appetite and was a very sick man. His kidneys are now in a healthy condition, his appetite good, sleep undisturbed and constipation cured; all this was done by Ryckman's "Kootenay Cure." He makes sworn statement to the above facts before J. W. Seymour Corley, July 10, 1890.

Since the season of navigation through the Soo opened, there has been locked through the Canadian canal 2,811 vessels, of 2,621,630 tonnage, carrying 7,735 pasengers, and freight to the extent of 6,684,669 tons.

Know How to Handle Crowds.

The handling of big crowds has reduced to a science by the Great Wallace Shows. It provides more than one ticket wagon, has several entrances and plenty of employes to assist its patrons in seeing its won-ders and getting seats that are satisfactory. The arrangement of its rings and stages is such that no seat is bad. Nor does this circus reserve nearly all the space; only about onefifth of the seats are extra. Although thousands see the show daily, they are handled so perfectly as to avoid all jostling. At London on Saturday, Aug. 15.

WHAT THE ARMY

A Caterpillar With an Appetite Hard to

The army worm is a species of caterpillar. It hatches from an egg deposited by a night-flying moth. Like the moth, the caterpillar prefers the night for labor and ordinarily remains quiet during the day. The hot sun is distasteful to the worms, and they die if exposed to it for any consider-able length of time.

The moth that lays the eggs is nearly one inch long and is one and three-quarters inches from tip to tip of wing. The eggs are deposited in rows of from fifteen to thirty near the roots of grass and grain where they will be protected. More than 700 eggs have been found in the body of a moth when dissected.

So earnestly does the female work while laying eggs that she dies after two nights of hard labor. The worms as caterpillars are ended they burrow into the ground and remain there until spring, when they emerge as moths to key eggs to produce more worms. The army worm has appeared al-

most every year, according to the United States Bureau of Agriculture, Only occasionally, however, have they been numerous enough to do serious damage to crops. In 1876 the entire west was overrum with the pest.
So numerous were they that they stopped rathroad trains.
They crawled on the tracks in such numbers that the wheels of locomo-

tives were unable to obtain a grip on the rails. They also swarmed over the engines, disarranged the machin-ery, thronged the cabs, and annoyed engineers and firemen. When they are once started nothing but death can stop them.

They have a low order of intelligence. (When they encounter a tree they do not go around. They climb up one side and down the other. As they travel from two to six rods an hour they often lose considerable time, but they do not mind that, and they apparently get much enjoyment out of the knowledge that they have gone straight shead and have not been

turned aside by obstaples.

A writer, in describing the ravages of the worm in the west in 1881, said that the sight, as a field of wheat was being devoured, was discouraging, and strong men turned away nauseated, after gazing on the slimy mass of wriggling worms. As they chewed the leaves, a slight, crinkfing sound could be heard. Within a few hours the grain was destroyed and the army took up its march for other pastures.
