PATRONS TELL OF POOR SERVICE

TO WEST LONDON Tecumseh Park Delays Cause Residents to Leave Cars

HURTS SUBURB, SAYS ONE

and Walk.

E. A. Pocock Suggests Plan to Remedy Conditions on Dundas Street Line.

London West residents are somewhat aroused over the squabble between the board of control and the street railway company which up to date has resulted in giving such poor service to their end the city. Some go so far as to say that they have boycotted the company and until a normal service is reported they will walk. The chief objection to there is too long a wait at Tecumseh Park for cars to return from Wharncliffe oad, a distance of one mile. Hurts the Suburb.

"The West London car service is very very poor," George A. McGillivray, 91 vertiser. "We have a fine suburb here. one of the best in the city, and it would school, and West Londoners more often walk than ride into town, because the wait for the cars is so long. There is no doubt that we need a much better service.

"I do not think the railway company is altogether to blame. I spoke to Mayor Graham about the poor service and irregu-Making Them Self-Sustaining.

To lessen the expenditure hitherto made for jail maintenance, by making in- a switch put in at Paul street, to overlar cars, and he said that he would have come the blockade." This is the view of William Moore, 19 Oxford street. Mr. Moore was one of the West Londoners who agitated for electric cars service when it first came into use in this part of the country. There was a twentyminute service then.

Cars in Blockade. "At present we are supposed to have On the industrial farms in the districts the inmates rise at 5:30, breakfast at 6, a ten-minute service. A few months ago sarvice was a twelve-minute one. with five cars instead of six. Six cars are Moore. "We really have to wait longer for cars now, on account of blockades than when there were only five cars on else a "Y" at Wilson avenue for the

all park extra cars." John Hobbs, 79 Oxford street, thinks too irregularly. "There should be a switch near Paul street to do away with the long waits.

"It took me three-quarters of an hour to ride home from Dundas and Richmond streets a couple of days ago," said Mr.

Hobbs. Bad Service Says Pocock.

"West London car service is, plainly speaking, rotten," declared E. A. Pocock, eal estate and insurance agent. "I live t 71 Blackfriars street. It takes me about ourteen minutes to walk there from downtown, but I walk instead of taking a car. The shortest time I ever went from Dundas street to Blackfriars street," said, "was 22 minutes. There should undoubtedly be a switch between Paul and Charles streets."

"As it is now, Dundas cars must wait at Tecumseh Park switch on the way to July West London, while the car ahead of it Sept goes all the way north on the Wharncliffe road to Oxford street, and back again to the switch-almost one mile."

"This results in most West Londoners getting out of the car at the switch and walking the rest of the way. Hundreds of West London residents walk all the time and do not bother with the cars," said Mr. Pocock.

Suggests a Remedy. He outlined a means of booming West ondon at little expense to the street

"Instead of the Dundas car turning east on Oxford street, why does it not turn west and reach more people? "Better still," said Mr. Pocock, "there should be a loop taking in the district lying between Mount Pleasant Cemetery and the Wharncliffe road, Oxford street, and Mount Pleasant avenue. There are more than 1,500 people in the district. which is one of the best in London. None of the residents who live near Mount Pleasant are convenienced by the present service, and whenever a person wishes to southern Pacific... 94%, 95%, 94%, 95% or there from other parts of the city. Southern Ry., pfd... 80 go there from other parts of the city, he is obliged to take a cab or taxi."

within the one mile limit. South London, just as far out, has two lines of cars, he pointed out. East London has a service more than two miles from the city's

"The West Londoners want to know why the partiality is shown to these other districts," said Mr. Pocock. "The Dundas line is the second best paying line in London. It has the worst service."

### FIVE THROWN TO GROUND WHEN SCAFFOLD COLLAPSES

Laborer Suffers Broken Leg and Others Sustain Minor Injuries in Berlin Accident.

[Special to The Advertiser.] BERLIN, May 27.—While a hod carrier was delivering a load of bricks to workmen at a residence under erection at Weber street east this afternoon, scaffold collapsed and precipitated five

men to the ground.

Several workmen were slightly injured. and Micheal Haller aged 57, a laborer from Preston suffered a broken leg above the ankle and other injuries.

He was removed to his home in Prestor the ambulance.
