### Four Leading Ministers of London Condemn Plan of Sunday Swimming Believe Moral Effect To Cause Harm

Sunday swimming once more formed the topic of discussion, when on Sunday four leading Nonconformist ministers of the city of London announced their stand on the ques-

There was no doubt expressed by any of them but that the opening of the pools on Sunday would be the thin edge of the wedge towards a wide-open Sunday and would do much to wreck the work done by the church.

The creation of a right public opinion had been the work of the church throughout the ages and as soon as a falling-off of this was noted decadence would set in.

Score Arguments.

The several arguments introduced by the indorsers of the plan were picked to pieces by ministers, who while expressing sympathy with the the air a distance of 150 feet, and a dense black pall of smoke had spread that six days was sufficient for them to enjoy the benefits to be derived from swimming. In these words Dr. MacGregor voiced his opinion of the people wh have in the past few days advocated swimming pools, in a vigorous ad-Andrew's Church.
