ronto Stock Exchange, Bank of Commerce Building. CORN AND OATS IN CHICAGO.

Kennett, Hopkins & Co. to R. Cochran: Corn and oats—The weakness in Sept. and Oct. corn was quite conspicuous and each succeeded in reaching a lower level. Late futures are not affected as Oct., doubtless because the heavy short interest which was driven out of Sept. and Oct. some weeks ago took refuge in the deferred futures and the demand from shorts anxious to take profits on this decline temporarily sustains prices. Provisions—Rather quiet, with slight changes in prices. The September report of the Department of Agriculture gives the number of

RICE LEWIS & SON Henry Allen & Co., New York, to John J. Dixon & Co.: The stock market for the week closes with a whoop. A disappointing bank statement has not diminished the buying, the fever is on, the bulls are in high feather and the fact that the expectation of an increase in the bank reserve of two million, panned out really as an decrease of nearly three quarters of a million, has only had the effect of making the active men in the market more energetic and earnest. Such a situation as the present has not been known in Wall-street in years and the talk about a repitition of the wide speculative boom of 1879 is beginning to have a show of reality in it. New pools to bull various stocks are in operation all over the market. The Keene crowd have gone into the Villiard stocks and are calmly talking par for N. P. Pr. and are calmly talking par for N. P. Pr. Cammack since he came back has been a talking bull, there is no evidence, however, that he has so far done anything more than talk. He is credited with being heavily long of National Lead around present prices. Philadelphia is backing the rise in Reading. A scheme to wipe out income bonds and put stock capital apparently close to dividend is the tip which is being quietly distributed on Reading. The Vanderbilt party are active in all their stocks and are in great favor over having put Lake Shore over the 120 mark. The same crowd are reported to be in St. Paul. The cotton oil has the latest bull pool to help it; Chicago is credited with organizing it.

NEW YORK COMMERCIAL NEWS.

Kennett, Hopkins & Co. to R. Cochran: The weather throughout the corn belt has been hot and forcing and the corn crop looks more promising now than at any time during the season. The movement of grain has assumed enormous proportions and the capacity of all western railways is being taxed to its utmost limit. In fact it has become a question already, whether the volume of business is not too large to handle with greatest economy of operations. It is certainly not economical to have roads blockaded. It seems to be a proper time for railway managers to consider the question of advancing rates. Certainly, railway corporations should share in the splendid prosperity that has come to the agricultural community, for in the days of adversity these companies steadily reduced their rates until the charge for transporting the world. This reduction in charges has been to rought about by competition and by the demand of agricultural communities, who have claimed now to a moderate advance in rates and information to this end can be obtained through the Association of Railway Presidents. This association has shown its power to maintain rates. Now it should go a step farther and advance them. London prices were irregular, but generally higher under this influence. The market to-day opened strong, with large transactions; traders were inclined to sell, but the volume of outside NEW YORK COMMERCIAL NEWS. Qp'g|H'gh|Lo'st|Cls'g MONEY TO LOAN higher under this influence. The market to-day opened strong, with large transactions; traders were inclined to sell, but the volume of outside business was large enough to take all their offerings, and when the bank statement was published the market immediately advanced and closed about highest prices. Next week there should be larger imports of gold, in spite of the efforts of foreign banks to prevent it. Every condition seems to favor higher prices. It is impossible to estimate the benefit to the growing corn crop of the magnificent weather that has prevailed during the week. Sales 312,822. Wholesale Grocers. 185 25 FRONT-ST. EAST A. G. Brown received the following to-day over his private wire from Schwartz, Dupse & McCormick: Seaboard clearances from both coasts, for the week, 6,900,000 bushels, largest on record. Very large charters here, about 600,000 bush and better export enquiry tended towards a steady wheat market. Receipts at Minn. and Duluth, 1100 cars; these brought about a reaction from opening figures but it proved only temporary. Bradstreet's announced the export clearances for 12 weeks as 50,000,000. There were those who claimed that engagements had been made for at least 50,000,000 more. The figures were large enough to look very imposing and certainly had a steadying influence. Minneapolis and Duluth will probably have 2000 cars of wheat Monday, and the spring wheat movement promises to be very large for the next 60 days. The weather throughout the corn belt was no different from what it has been—perfect. Corn—Reteipts—680 cars—were again over the expectations; the estimates for Monday 700. The stock of corn here has increased this week about 15,000,000 bushels. Oats were duli within a range of ½ c. Provisions were a little easier in sympathy with corn. The Government report for September aning hogs of 64 10 per cent. §300,000 hogs. The figures, however, made no impression. Fackers, influenced chiefly by the splendid corn prospects, are bearish on next year deliveries.

GRATEFUL-COMFORTING

"By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected Cocoa, Mr. Epps has provided our breakfast tables with a delicately flavored beverage which may save us many heavy doctors bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hunareds of subtle enaladies are floating around us ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame." —Civil Service Gazette.

Made simply with boiling water or milk. Sold only in packets by Grocers, labelled thus: BREAKFAST.
