The renter usually finds that his rent is too high, or he is dissatisfied for some reason and is restless, and discontent stalks before him. He wants to move. ON Saturday afternoon five members of Lambtons 149 chapter, I. O. O. E., served tea in Dr. Hick's vacant store. It is not too early for the health departments of our municipalities to prepare for their spring clean-up day. The snow will soon be gone, exposing to view the accumulated refuse of the winter months. In Canada we are favored with a covering mantle of snow during several months, and as a consequence, are inclined to be somewhat careless of sanitary conditions. With the coming of warmer weather this neglect becomes a source of great danger, and unless prompt action is taken, may give rise to serious epidemics. Municipal Councils and Boards of Health should institute regular delay plans for a spring clean-up, and the local pride of the people in a clean town should help along such a movement.

UNTIMELY blizzards and belated storms do not obscure the fact that long days of sunshine and nights of frost will soon start the sap in the maple trees. Memory of a time when the principles of evaporation were not so well or widely known as at present, when the sap was boiled in small kettles, sometimes with a piece of pork suspended to make a film and pre-

vent boiling over, still lingers, and some will lament the change in the flavor of syrup and sugar. But their lament will be compared to that of the sailors who complained, when given the beef intended for the cabin passengers, that there was "no claw to it."

MODEL SUITS, ready to wear, art tailored.—SWIFTS.
