### COMMERCIAL SUMMARY.

The cotton and general produce markets are steady, and are likely to be so for some time. The comparative ease of the money market, considering the time of the year, the business doing has however, been extensive, though a fair amount of business has been transacted, at prices, for the most part, all for consumption, and by public sale. Our exports have been light, and chiefly from the Baltic; exports very slender. The stocks of produce in first hands is generally very large, and there is not much business advertised on hand.

Never perhaps, in the history of this country, can we point to a period when the general trade of the country was in a more flourishing condition. In the cotton branch, most of our spinners and manufacturers are full of orders for months to come, and at the season, when trade has heretofore, been exceedingly flat. The employment for the working classes, arising out of this happy state of things, dispels all fears of suffering for the approaching winter.

The quantity of available capital in the market continues much the same, and so do the rates of discount, being 2 1/4 to 6 and 8 on

Liverpool Timber Market, Dec. 4.

The month the arrivals from British America have been again considerable, amounting to 78 vessels, 42-43 tons making the month 1st Feb. to date, 315 vessels, 103,000 tons or more by 9445 tons than the same import last year. At the end of January, the market however, remains firm, and now that the number of vessels destined to this place is known, the timber merchants are disposed to take all into stock. The continuation throughout has been very considerable, and prices are likely to be maintained.
