# Two Horses.

We supply a first class Governor when required with our Tread Power. Most governors cause friction and thus consume a great deal of power unnecessarily.

We make powers any width to suit customers and keep three widths of 2 Horse Powers in stock. Do not buy a 3 Horse Tread Power if you are going to use only two horses on it; you are wasting your money and losing power both at the same time.

# TOLTON'S No. 1 Double Root Cutter

### Points of Merit

1. To change from pulping to slicing is but the work of a moment.
2. There are two separate wheels, one for pulping and the other for slicing.
3. The united force of both wheels is always used in doing the work in either capacity.
4. The hopper is between the wheels, and does not choke.
