

assist Mr. Irwin in the boundary country, and the other to live at Sandon. If we could have grants in aid of these additional clergy for three years, they would probably form self-supporting congregations before the grants expired. I say nothing now of our work and our needs in other quarters.

Faithfully yours,

JOHN NEW WESTMINSTER.

A letter has been received from All Hallow's School, Yale, Diocese of New Westminster, which tells of the joy experienced by the arrival of a huge bale which was packed at the Central Rooms. All Saints' M.C.L., outfit for W.B.; the garments for G.B. from the Peterboro' Juniors and many articles which were sent for the use of the School, each and all gave great pleasure and satisfaction.

Margaret Durntall writes, April 27th, that she has had a busy winter at St. Peter's, Lesser Slave Lake. It has fortunately been a very mild winter and they have had no sickness. She asks if it would be at all possible to be provided by the W.A. with a helper in her work, as her work has been more than her health admits of doing.

### DORCAS NOTES.
