THE GROCERY TRADE

Mitchell, James.
Robertson, David.
Tides, Brus.
Thom;wen, Marray & Co.
Torrance, David, & Co.

BUSINESS generally has been quiet, with trans-actions, so far as reported, of only limited nature.

TEAB -The demand for the week has been chiefly for medium-grado Gunpowders and Japans, although sales have only been of small lots, purchasers buying from hand to mouth, preferring to wait for a more active trade before stocking largely. I wankays still in demand, and held for full figures. I onny Hysons almost wholly neglected. Blacks quiet and un-

Correct-Meets with small enquiry, principally from the city mills for grinding.

SUGAR.-Since our last report there have been several cargo arrivals, principally of Cuba and Barbadoes, fair to good gracery, now offering. There is good enquiry, but so far we have not heard of any business having been done. Quotations are nominally unchanged. Refined has a fair demand, prices remaining without alteration.

Molasses-Is in fair demand, more particularly the better grades of Clayed, Centrifugal and Confuegos. Several lots of Trinidad have been offering, and have in some instances met with purchasers at from 40c. to 42c. Centrifugal may be quoted at from Mrc to Mc. for round lots, Clayed Mc. to Mc., Cienfaegos, however, is rather scarce and the few lobs offering command from 35c. to 40c., according to quality.

FROIT -The demand has been principally of a retail nature to set up stocks. Advices received within the past week state positively that Valencias will be little if any over half a crop, while Fruit, usually furnishing choicest Layers, is this season so small as to be only fit for ordinary grades. Currants are without much demand, and prices unaltered.

Rich-Some few lots have arrived during the week and sro now offering or wharf at a chade under our quoistions. Demand, however, seems to be comewhat limited, and no large transactions are reported.

Salt-Has had but little demand at last week's quotations.

Sprogs-Are quiet and unchanged.

Wines and Liquons.-The demand has been of little beyond retail lots, and in the absence of transactions, prices are nominally unaitered.

THE HARDWARE TRADE.

rathern & Coverbill, Evans, John Henry, Ferrier & Co. Hall, Kay & Co.

Intriere & Cir. Motiand, Watson & C Mulholland & Baker. Hobertson, Jas.

THE business of the past week, in beary goods, has goods, there has also been little done, though not less than is usual at this the dullest period of open navigation. Prices are entirely unchanged.

ware, &c., from Liverpool to Montreal for the week coding July 22:-

ware; 107 bxs window glass; 383 tons bar and bolt Iron; 28 tons iron castings; 109 tons hoop Iron; 84 kgs, 15 csis, 15 bags nalls; 22 tons plate iron: 10 tons rod iron; 63 tons sheet fron; 23 tons wire, £210, maoblinery; 14 cs smallwares; 23] tons iron tubes; 74 tons galvanized iron; 1,050 bxs Canada plates; 2,161 bars tin plates.

The principal shipments from Glasgow were 123 tons plate iron; 60 tons bar iron.

THE LEATHER TRADE.

Akin & Kirkpetrick. Seymear, M. H. N. S. Whitney.

TTE have to note more animation in this branch of trade for the nest made. trade for the past week. Still there is as yet no decided activity. Receipts for the week have been very limited, and figures for some classes of leather are much firmer.

MONTREAL PRODUCE MARKET.

Akın & Kirkpatrick. Dawes Brothers & Co.

Mitchell, Robt.

FLOUR.—Receipts have continued liberal for the season, and the duliness last noted continued for some days. Favourable cable advices received last Moeday stimulated demand and prices, and a large quantity of flour changed hands at an advance of from 10c. to 15c. Welland Canal was taken at \$5.10 to \$5.25, closing at \$5.25, holders demanding \$5.30. Several thousand barrels of City brands also changed hands on Monday at \$5.25. Ordinary Canada sold freely for the time at 85 15, ranging up to \$5.40 for very strong. Since then holders have demanded some advance, which has not been responded to, and for a day or two past, very little has changed hands, market closing very quiet at prices slightly in favour of the buyer. The range for ordinary Supers at the close was \$5.15 to \$5.25, strong ranging up to \$5.60 according to sample. Extras and Lancies have been scarce, and though in but limited demand, prices have advanced, holders firm at the close at quotations, but only broken lots taken. Lower grades have undergone little variation. No. 2 has advanced somewhat, sales being made at prices ranging up to \$4.90, but closing at \$4.75 to \$4.80. Fine has sold at \$4.45 to \$1.50, closing at \$4.50. Small sales of Pollarde and Middlings within quoted range. Bogs have been sparingly supplied, demand falling chiefly on the product of iccal mills, held firmly at \$2.60. Good samp)os om Western Canada would now reli at \$2 60 to \$2.65.

The shipping demand for floor has been virtually brought to a close for want of ocean tennage, else a much more active state of things would obtain in view of the encouraging advices from Britain.

GRAIN.-Holders of No. 1 Western wheat are asking \$1.25, at which however there are no buyers. Latest sales have been at \$1.20} for No. 2. Little U C. Spring offered, arrivals being mostly direct to millers. Any recent transactions have been at \$1.19 to \$1,20. Pease little offering; holders demanding \$1.05 which buyers are reluctant to concede, and only retail lots have changed hands. Oats-Little doing. Small sales may be noted at 450. to 400. Some parcels of inferior aftest are offering at 44c. In other grains there is nothing doing.

PROVISIONS .- Pork continues as form rly noted, demand confined to small consumptive wants; rates generally unchanged. Cutments in limited retail demand, at former prices. Lord dull at unchanged rates. Butter: The heat of the weather recently has tept back supplies, and there is an insufficiency of good butter offering for the city trade, and rather higher prices are asked than were obtainable last week. One or two round lots have sold in the course of the week at 15c. to 15 o. for shipment. Retail tots for table use bring 162. Cheese: Little done on the spot. Percels are arriving, but mostly for shipment for secount of manufacturers.

ABHES .- Pots have ruled dull, and former rates are barely maintained. Pearls have arrived sparingly and all offered have been taken up at prices within quoted range, market closing firm.

The Harvest On.—Harvesting operations have streamy became in various sections bereadouts, and in feelds where the wheat has been annually favored. The expectation is general that we shall have an feelds wing are the shipments of Iron, Hardman, &c., from Liverpool to Montreal for the week maint July 22:—

The expectation is general that we shall have an extraordinary field in all quarters. In. These Winners in the das sample taken from a field on the Hamilton farm, &c., from Liverpool to Montreal for the week fill is hardly possible to see. The grains were large, fall, clear, and of uniform size. We suppose the hardvest will be general in a few days.
