

THE CHURCH TIMES.

95

We admit that the Presbyterian tendency is not towards Rome; but facts prove that it naturally leads to Unitarianism, to which most pernicious errors, we believe, that hundreds are led from amongst the various Protestant denominations for every one who is perverted from the Church of England to Rome. That notwithstanding many distinctive features, there is a certain degree of similarity between Rome and our Church, only proves that they have sprung from the same root, the one being a genuine representative of the primitive Church, the other having been originally the same, but now disfigured with many corruptions. That Romanism is a corruption of primitive Christianity will be allowed by the Editor of the *Presbyterian Witness*, and we conclude upon his own showing, that the Church of England more nearly resembles the primitive Church than Presbyterianism does.

Information was received, by the last Mail, that Wednesday, 21st inst., had been appointed to be observed as a day of Fasting and Prayer throughout Great Britain and Ireland. There was not time to make arrangements for the observance of the same day throughout this Province, and probably some other day may hereafter be appointed by Authority if the War continues. But, in order that the Members of the Church here might be enabled to join with our Brethren at home in the solemn services of the day, the Psalms, Lessons and Collects appointed for the Fast day at the commencement of the War, were used at both the Parish Churches in Halifax, which were well attended.

KING'S COLLEGE.

The attention of those who have subscribed, and given their notes of hand thereto, to the General Endowment, is particularly directed to the Notice in the *Church Times*, as the payment hereof will enable the Governors, so soon as Seven Hundred and fifty pounds is paid in, to obtain from Mr. Collins the remaining instalment due on his Subscription and thereby perfect the Endowment of Ten Thousand Pounds.

A course of Lectures will be preached at St. Paul's Cathedral on the evenings of the Holy Week. The Service will commence each day at half past 7, except on Good Friday, when it will commence at the usual hour of 7. The subject will be—Christ our pattern and example with reference to particular graces and duties. The following is the proposed arrangement:

Monday—Illivity, by Rev. R. H. Bullock, B.A.
Tuesday—Diligence and zeal, by Rev. Professor Hill, M.A.

Wednesday—Prayer, by Rev. E. Maturin, M.A.
Thursday—Meekness, by Rev. J. Shreve, D.D.
Good Friday—Obedience, by the Lord Bishop.
Easter Even—Forgiveness of Injuries, by Rev. E. Gilpin, Jr. M.A.

The excellent Letter of Bishop Hopkins, addressed to the Editors of the *Protestant Churchman*, which we give, along with the introductory comment, will tend to settle the minds of many persons who consider the subject upon which it treats, with a view to come to a right conclusion. It there be any here, who may have been led astray by the writer whose plausible statements the worthy Bishop so signally confutes, the Letter will be very acceptable to them.

The mission of Mr. Howe to the U. States, the secret of which has been kept as well as could be expected, has at length become public. The people of Halifax may prepare to welcome the brave defenders of their country. The advance guard of the Legion raised by Mr. Howe, may be expected to arrive from Boston on Monday next. There will probably be three or four hundred. These barracks are to be at M'ville Island, the buildings on which are being prepared for their reception.

The Legislative Council on yesterday afternoon, deferred the Prohibitory Liquor Bill, by a majority of 10 to 8. They have ordered that the Bill shall be printed and distributed 300 to each county.

In the House, in Committee of Ways & Means, the duty on Molasses was reduced from 2d to 1d—after angry discussion. The duty on Printing paper was also abolished, on Printing Paper, and all larger sizes;

TO CORRESPONDENTS.

The object of *Russia* is a good one, and a few articles calling attention to the subject in a general way, and more for the purpose of bringing the Party to a proper perception in such matters, than with the intention of condemning the Clergy for "irregularities in the parishes of the various places of the Church," which growing out of peculiar circumstances, they probably could not control, would be useful. The subject is important, and would require to be carefully treated on both sides.

B. L.—We find no document in the article that may be considered of any value upon the question of Sedition, had better leave it in the hands of those who are the competent parties to discuss the subject. The propriety of their establishment has been recognized, not only in this Province, but in others of the Dependencies of Great Britain. The example of the Church in the U. S. shows that much good may be derived from their working.

About two months ago, she commenced using Holloway's Pills, and complied with the printed directions, which quickly produced a very pleasing change, in two weeks the bloom of health was again upon her cheeks, being perfectly cured, to the agreeable surprise of her friends. These Pills are also infallible in all diseases of the stomach and bowels.
