NO. 3.

IMPORTANT THERAPEUTIC USES OF

Fairchild's Essence of Pepsine.

Fairchild's Essence of Pepsine aids the administration and remedial action of drugs and chemicals which disturb the stomach and impair digestion. It is indispensable to the continued successful use of the mercurials, iodides, sodium salicylate, etc. It is helpful also in the toleration of morphine, allays nausea and vomiting.

As an ever-ready resource for the habitual dyspeptic, for the large class of persons who, from mental work, care, anxiety and naturally delicate stomachs, are frequently subject to attacks of dyspepsia, Fairchild's Essence of Pepsine is a rational, innocent, and effective remedy.

Fairchild's Essence of Pepsine, made direct from the fresh stomach of the nursing calf, is of peculiar value in infantile indigestion, as a stomachic, antiseptic and corrective.

For these purposes Fairchild's Essence of Pepsine is found most convenient and reliable—in every way superior to any other so-called "Essence" of Pepsin.
