

FIRST PRIZE FOR ARTIFICIAL LIMBS

AND SURGICAL APPLIANCES.

APPARATUS of every description made to order, for Paralysis, Hip-joint Disease, Weak Ankles, Club Feet, &c.

JAMES AUTHORS,
16 King Street East, Toronto.

TORONTO, Sept. 17, 1874.

I have much pleasure in being able to testify to the skill, ingenuity, and excellence of workmanship shown in Mr. Authors' surgical appliances. They will bear comparison with those manufactured in any part of the world.

JAMES H. RICHARDSON, M.D., University of Toronto, M.R.C.S., England.

DR. WHEELER'S
ELIXIR FERRI ET CALCIS PHOSPH. CO.
LACTO-PHOSPHATES prepared from the formula of DR. DUSART, of Paris.

Compound Elixir of Phosphates and Calisaya—A Chemical Food and Nutritive Tonic.

THIS elegant preparation combines with a sound Sherry Wine percolated through Wild Cherry Bark and Aromatics, in the form of an agreeable Cordial, 2 grs. Lacto-Phosphate of Iron, 1 gr. of Alkaloids of Calisaya Bark, Quinia, Quinidia, Cinchonia, and fifteen drops of free Phosphoric Acid to each half ounce.

In the various forms of Dyspepsia, resulting in impoverished blood and depraved nutrition, in convalescing from the Zymotic Fevers, Typhus, Typhoid, Diphtheria, Small-pox, Scarlatina, Measles, in nervous prostration from mental and physical exertion, dissipation and vicious habits, in chlorotic anæmic women, in the strumous diathesis in adults and children, in malarial diseases, after a course of quinia, to restore nutrition, in spermatorrhœa, impotence and loss of sexual orgasm, it is a combination of great efficacy and reliability, and being very acceptable to the most fastidious, it may be taken for an indefinite period without becoming repugnant to the patient. When Strychnine is indicated the Liquor Strychnine of the U. S. Dispensatory may be added, each fluid drachm of the solution, to a pound bottle, making the 64th of a grain to a half fluid ounce of the Elixir, a combination of a wide range of usefulness.

The chemical working of the formula is peculiar to the originator, and the various imitations and substitutes offered by druggists will not fill its place.

DOSE.—For an adult, one tablespoonful three times a day, after eating; from seven to twelve years of age one dessertspoonful: from two to seven, one teaspoonful.

Prepared by T. B. WHEELER, M.D., MONTREAL, D.C.
