

ing up at the touch of a foreign object. Or, take the simple pimpernel which closes its eye as the sun goes down, and opens as he rises again—shrinks at the approach of rain, and expands in fair weather. The hop twines round the pole in the direction of the sun, and

"The sunflower turns on her god when he sets,
The same look that she turned when he rose"

Do we know anything about these things further than that they are so?

A partridge chick breaks its shell and steps forth into its new world. Instantly it runs about and picks up the seeds lying about on the ground. It has never learned to run, or to see, or to select its food; but it does all these on the instant. The lamb of a few hours' old frisks about full of life, and sucks its dam's teats with as much accuracy as if it had studied the principles of the air pump. Instinct comes full grown into the world at once, and we know nothing about it, neither does the Mr. Dappering above named.

When we ascend to the higher orders of animated being—to man himself—we are as much in the dark as before—perhaps more so. Here we have matter arranged in its most highly organized forms—moving, feeling, and thinking. In man the animal powers are concentrated; and the thinking powers are brought to their highest point. How by the various arrangements of matter in man's body, one portion of the nervous system should convey volitions from the brain to the limbs and the outer organs, how another part should convey sensations with the suddenness of lightning, and how, finally, a third portion should collect these sensations, re-act upon them, store them up by a process called memory, reproduce them in thought compare them, philosophize upon them, embody them in looks is a great unfathomable mystery!

E. V. WILSON,
General Travelling Agent.

Observatory, Toronto, Sept. 9 1851.

At the request of Mr. Wilson I have examined his Lightning Conductor, and heard his explanation respecting it. His views appear to me to be reasonable and correct, and the Metallic Point a good form of the Instrument; the Platinum Point is an essential part of it, but I do not consider the Magnets to be so, or that they can have any possible effect, good or bad as such; as additional points, the opinion of the best authorities is that such are of no use; one good point being all that is necessary, but they can do no harm.

I further state, at Mr. Wilson's request, that in my opinion any building so elevated as the St. Lawrence Hall, or the Lunatic Asylum, ought to be provided with several Points, and several Conductors, which latter should be placed in good metallic communication with the tin covering of the roof and any other considerable masses of metal about the building. The conductors should be led off to the iron water pipes under ground.

HEALTH WHERE 'TIS SOUGHT
HOLLOWAY'S PILLS.

Cure of a Case of Weakness and Debility, of Four Years' Standing.
Extract of a Letter from Mr. Smith, of No. 5, Little Thomas Street, Gibson Street, Lambeth, dated Dec. 12, 1850.

To Professor HOLLOWAY,—
SIR,—I beg to inform you that for nearly five years I hardly knew what it was to have a day's health, suffering from extreme weakness and debility with constant nervous headaches, giddiness and sickness of the stomach, together with a great depression of spirits. I used to think that nothing could benefit me, as I had been to many medical men, some of who after doing all that was within their power, informed me that they considered that I had some spinal complaint beyond the reach of cure, together with a very disordered state of the stomach and liver, making my case so complicated that nothing could be done for me. One day, being unusually ill and in a dejected state, I saw your Pills advertised, and resolved to give them a trial, more perhaps from curiosity than a hope of being cured, however, I soon found myself better by taking them, and so I persevered in their use for six months, when I am happy to say they effected a perfect cure.

[Signed] WILLIAM SMITH.

These celebrated Pills are wonderfully efficacious in the following complaints.

Ague Female Irregularities Scrofula, or King's Evil
Asthma Fevers of all kinds. Sore Throats
Bilious Complaints Fits Stone and Gravel
Blotches on the Skin Gout Secondary Symptoms
Bowel Complaints Headache Tic-Doloureux
Colic Indigestion Tumours
Constipation of the Bowels Jaundice Ulcers
Consumption Liver Complaints Venereal Affections
Debility Lumbago Worms of all kinds
Dropsy Piles Weakness from whatever cause, &c., &c.

Sold at the Establishment of Professor Holloway, 224, Strand, (near Temple Bar,) London, and by all the most respectable Druggists, and Dealers in Medicines throughout the civilized World, and at the following prices—1s. 10d., 4s. 6d., and 7s. 6d., each Box. There is a considerable saving by taking the large sizes.

N.B.—Directions for the guidance of Patients in every case are affixed to each Box.

AYER'S CHERRY PECTORAL.
For the Cure of Coughs, Colds, Hoarseness, Bronchitis, Whooping-Cough, Croup, Asthma, and Consumption.

Among the numerous discoveries Science has made in this generation to facilitate the business of life—Increase its enjoyment, and even prolong the term of human existence, none can be named of more real value to mankind, than this contribution of Chemistry to the Healing Art. A vast trial of its virtues throughout this broad country, has proven beyond a doubt, that no medicine or combination of medicines yet known, can so surely control and cure the numerous varieties of pulmonary disease which have hitherto swept from our midst thousands and thousands every year. Indeed, there is now abundant reason to believe a Remedy has at length been found which can be relied on to cure the most dangerous affections of the lungs. Our space here will not permit us to publish any proportion of the cures effected by its use, but we would present the following opinions of eminent men, and refer further enquiry to the circular which the Agent below named, will always be pleased to furnish free, where in are full particulars, and indisputable proof of these facts.

From the President of Amherst College, the celebrated Professor Hitchcock.

"James C. Ayer—Sir: I have used your Cherry Pectoral in my own case of deep-seated Bronchitis, and am satisfied from its chemical constitution, that it is an admirable compound for the relief of laryngeal and bronchial difficulties. If my opinion as to its superior character can be of any service, you are at liberty to use it as you think proper."

EDWARD HITCHCOCK, L.L.D.

From the widely celebrated Professor Silman, M.D., L.L.D., Professor of Chemistry, Mineralogy, &c., Yale College, Member of the Lit. Hist. Med. Phil and Scientific Societies of America and Europe.

"I deem the Cherry Pectoral an admirable composition from some of the best articles in the Materia Medica, and a very effective remedy for the class of diseases it is intended to cure."

New Haven, Ct., Nov. 1, 1849.

Major Pattison, President of the S. C. Senate, states he has used the Cherry Pectoral with wonderful success, to cure an inflammation of the lungs.

From one of the first, Physicians in Maine.
Saco, Me., April 26, 1849.

Dr. J. C. Ayer Lowell. Dear Sir: I am now constantly using your Cherry Pectoral in my practice, and prefer it to any other medicine for pulmonary complaints. From observation of many severe cases, I am convinced it will cure coughs, colds, and diseases of the lungs, that have put to defiance all other remedies.

I invariably recommend its use in cases of consumption, and consider it much the best remedy known for that disease.

Respectfully yours, I. S. CUSHMAN, M.D.

Prepared and sold by James C. Ayer, Practical Chemist, Lowell, Mass.

Sold in Toronto by Lyman Brother & Co., in Hamilton by Hamilton & Kneeshaw; in Kingston by E. W. Palmer; in Montreal by Lyman & Co.; in Quebec by Joseph Bowles, and by the Druggists everywhere throughout the Provinces and United States.
