

In Your Concrete Specifications

To secure a perfect and permanent waterproofing effect, just specify

MEDUSA The original dry white powder Waterproofing

Whether it be a damp basement, a huge waterfront elevator, or any other concrete structure, Medusa will make it absolutely and permanently waterproof.

The proportion of actual waterproofing substance in Medusa is unusually large.

It contains fully 25 per cent. of

combined fatty acids. It is therefore absolutely insoluble. Water is unable to affect it, even after many years of contact.

The most eminent Architects and Engineers now insist on its use.

We would be glad to send any further par-

ticulars or proofs desired.

"Wilson" Rolling Steel Shutters.

"Wilson" Rolling Steel Doors and Shutters

Even under intense heat, they will not warp or twist, and though red hot, still serve as a perfect barrier to the flames.

To assist Architects and Engineers in making suitable preparation for the installation of Steel Doors and Shutters in various types of buildings, we will be pleased to send detail sheets and specifications.
