2. To what branches were these grants made and what was the amount of each grant?
3. What was the nature of each project?

Return tabled.

Mr. Diefenbaker: Mr. Speaker, I have four or five questions on the order paper, all of which may have embarrassing results for the government, but that does not excuse the delay in answering them. One is starred question 1,800 which has been on the order paper since March 29. It reads as follows:

1. On what dates since January 1, 1973, did the Minister of Industry, Trade and Commerce communicate with the Secretary of Commerce of the United States regarding possible or potential trade action by the United States against Canada?
2. Have letters of protest to the United States government been sent by either the Prime Minister or the minister and, if so, on what dates and to whom?

No matter how free one is from suspicion, the fact remains that this answer could have been given long ago. The answer would be very simple. I think it is that no communication has taken place, and that is the reason there has not been any answer.

Mr. Gillespie: Mr. Speaker, I shall be very pleased to look into this question. Quite frankly, I thought it had been answered and I regret it has not.
