My dear Harry:-

Lieut. E.A.A. Hunter duly called on me and I gave him all the information in my possession concerning our C.O.T.C. He brought another young man with him and both of them seemed useful products of the organization. They tell me that there is a survey company in connection with the Cambridge O.T.C. and I should be very much obliged if you would let me have any information regarding it, as we might very easily establish something of the sort here.

Kind regards,

Yours sincerely,

Wilfrid Bovey.
