## BABY BOY UPHOLDS ROWELL'S POLICY

Four-Year-Old Pleads With Church-Goes to Abolish the Bar.

## W. E. RANEY'S PROPHECY

Many Addresses Given at Political Meeting in Metropolitan Church on Sunday.

"Do just what you're told to do, and help us boys," was the advice of four-year-old Victor Dyer, speaking at an election-eve meeting of "abolish-the-bar" advocates yesterday afternoon in the Metropolitan Methodist Church, under the auspices of the Canadian Brotherhood.

Victor's plea, followed by addresses by C. A. Moss, K.C., W. E. Raney, K.C., and Rev. H. R. Nobles. Introducing Mr. Moss, ex-Mayor Joseph Oliver declared the present fight to abolish the license of bars, taverns and shops the greatest waged in Ontario's history. "I am confident of victory," he said, "because of the universal feeling that the saloon has worked its own doom."

"Is the demon run a good or bad thing?" was the question discussed and answered in the negative by Mr. Moss. The speaker told of conditions 20 years ago and today, concluding with the assertion that the majority of the citizens of the province and the Dominion were in favor of ending liquor traffic. "Many forces have figured in bringing about this conclusion," said Mr. Moss. "Among them is the temperance movement which has been most potent in recent years, the churches, medical men, and lastly, but not least, women, who have worked, hoped and prayed for the result about to be recorded tomorrow night."

"Our work, however, must be done a step at a time," the speaker continued. "If we are successful in abolishing the bar and club licenses this year, I am sure the shops will follow soon."

Had Turned Liberal. Rev. Nobles declared he had been a Conservative, but turned from his party on what he termed a "highly moral issue in the present campaign." He compared Mr. Rowell with David Lloyd George in the temperance cause, and defended Toronto pastors for their stand, declaring he had "obeyed the voice of conscience, not of party, and had become an independent elector."

Mr. Raney discussed cause and effect in its relation to the liquor question. Women, he said, were largely responsible for the movement against the bar. As an example of the work done by them he gave the closing down of bars, gambling houses and resorts in Seattle, Wash., several years ago. "We are bound to a system," he said, "and we must assert ourselves. We have been told that regulation of vice would settle the liquor question. To regulate it would be to protect it. Monday's election will see the end of bars in Ontario; if not, it will witness a final blow to the traffic which cannot remain in our midst much longer, at least."

Attractive Boat Trips Dominion Day. Among the many attractions for Dominion Day none have a stronger appeal than an outing by the commodious steamers of the Canada Steamship Lines, Limited. Low rates will be in effect to Niagara Falls and Buffalo, also to Olcott, Grimsby and Hamilton, with special steamer service on the various divisions. For the convenience of the travelling public, the city ticket offices of the company, at 46 Yonge street, corner of Wellington street, will be open Tuesday night, June 30, but tickets can also be obtained at the offices early Wednesday morning, or at Yonge street dock.

## GALT ORANGEMEN AT CHURCH.

GALT, June 23.—The Galt Orange Lodge this evening attended divine service at the Methodist church in a body and besides a good turnout of the local Orangemen many visitors were present. Rev. James Strachan preached an appropriate sermon on "The spirit that giveth life."

## PREVENTION

The physical welfare of the child is much more easily managed than the mental; for nature has given us the most easily molded and most responsive material possible.

There is no other period of life when the habit of good health can be more easily formed, and no other period when illness is so easily contracted and meets with so little bodily resistance as during infancy and early childhood.

Naturally, as we have said before, babies are healthy little animals. If they are not, it is because of inherited low vitality due to faults of their parents; or, because of wrong surroundings due to ignorance or neglect of right health methods.

The well baby needs simple guidance to see that he keeps well; the sick baby needs attention in the effort to make him well; but the merely delicate baby with low power of resistance to disease and with constant low vitality needs both guidance and the best attention that medical skill can give.

Modern medical science is most interested in the prevention of disease. To keep a baby well is far easier, safer and surer than to cure him after he has once become ill.

## Oriental Poppy

Papaver Orientalis.

The poppies are a gorgeous family, as everyone knows. Beautiful as a dream, are their silken blooms, and as short lived.

There are several popular varieties cultivated by amateurs and I wish I could teach these amateurs how much more satisfied they might be with the lovely things, if they would learn, once for all, that poppies cannot be transplanted with success.

The seeds must be sown early and in good ground. The plants are the most weeded out so that each single plant will have enough room to feed in. Add to this, constant cultivation during their short life, and abundance of water. This for the ordinary poppy plant.

But how few of you try the Oriental Poppies. These are the most magnificent of all plants, native of Persia and, like the Persians, reveling in true barbaric splendor of color and silken textures. And, moreover, it is a perennial, if you please, and in this respect different from other poppies.

There are some splendid specimens blooming just now in some of the older gardens of Ontario. The great spreading flowers, terminal, and from easily surpassing every other flower in beauty and regal splendor. I have viewed some plants this week that are as big as feet high.

Just think of a flaming orange-red silken blossom, purple hearted, standing five feet tall, swaying to every slight breeze that blows. And each plant may bear from one to twenty blossoms, each borne singly upon its lofty stem.

The frail petals soon fall away, it is true, but still the plant is none the less splendid. Above the plant stands the great seedpod, crowned with purplish stamens, the pod two inches across. The study of the growth of this seed pod forms one of the most enthralling of all the lessons taught by the garden.

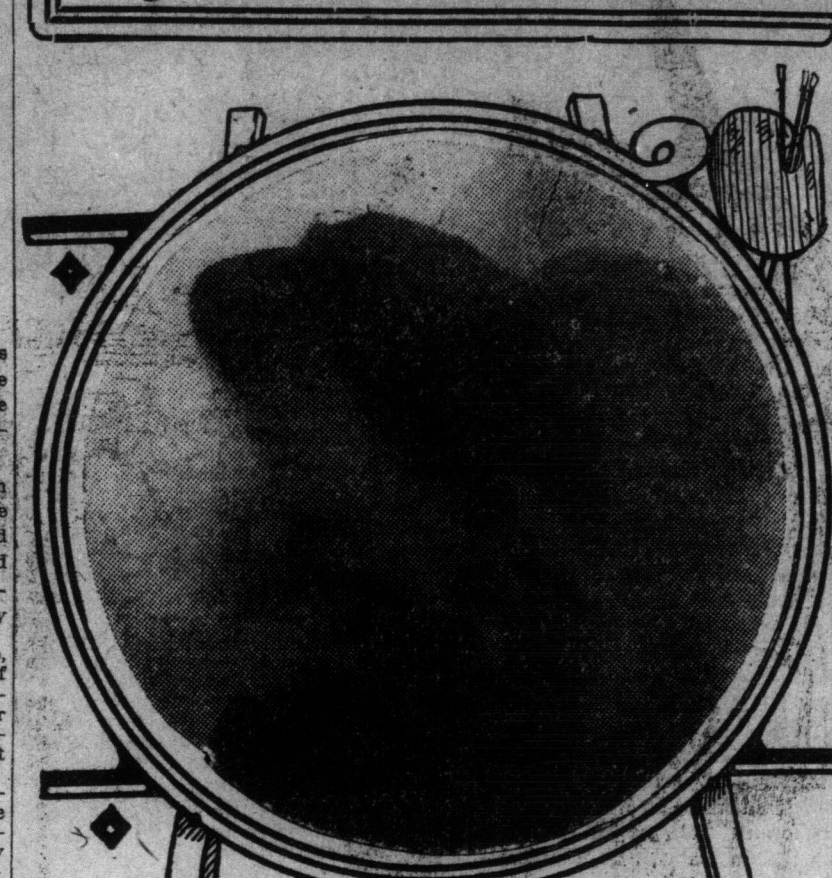

## SMALL GALT BOY RUN OVER BY AUTOMOBILE

GALT, June 23.—Cecil Chamberlain, the nine-year-old son of W. Chamberlain, Lansdowne avenue, on Saturday evening at the entrance to Dickinson Park was knocked off his bicycle by a baby buggy and run over by an automobile, owned by Hall Bros., Galt. The driver apparently did not know he had run over the lad, for he backed the machine over him a second time. The boy was picked up and hurried to Dr. Dakin's office in the east. Although no bones were broken, and so far as could be seen the boy was only badly shaken up, and bruised.

## BONSTELLE PLAYERS

This week admirers of Mrs. Frances Hodgson Burnett's works are going to see some of her best known characters portrayed upon the stage when the Bonstelle Players present "Little Lord Fauntleroy" at the Alexandra Theatre. The title role will be taken by Thomas Benton Carnahan, New York's favorite boy actor. For the accommodation of those attending the performance to-night, two special wires have been installed for the receiving of the results of the election. Matinees will be given Dominion Day, Friday and Saturday.

## "SEVEN DAYS" AT PRINCESS

"Seven Days," funniest of the many farce comedies which have made New York laugh in the past two seasons, will present Percy Haswell in her fifth week at the Princess Theatre this evening in an unusually happy role. "Seven Days" is said to contain more laughs to the minute than any of the contemporary comedy hits. The strange experience of a crowd of people, including two young couples, a spinster, a policeman and a burglar looked in a quarantined house furnish material for a story in which surprise follows surprise in the most rapid order. For the Wednesday matinee, Miss Haswell has personally endorsed a ticket with her autograph, which will be mixed up among the first three hundred sold. The person securing this ticket will be entitled to a box with Miss Haswell's compliments for this matinee. The ticket will not be taken up, but may be retained as a souvenir.

## MADONNA OF THE LOUVRE

"Madonna of the Louvre," the play by M. Benjamin Osborne, which is to have its premiere at Shea's tonight, is a four-act modern problem drama. It will be the first time that a play by a Canadian dramatist ever had its premiere in this city. Mr. T. Daniel Frawley, who selected the play from among fifty others submitted in the \$1000 prize contest at Shea's tonight, will afford Miss Adele Blood, who will portray the leading character, exceptional

## COBBOURGH WOMAN THROWN FROM RIG

Mrs. S. C. Smith Seriously Injured When Wheels Passed Over Her Body.

COBBOURGH, June 23.—Mrs. S. Smith, proprietress of the Arlington and Col-

umbian Hotels, is in a critical condition as the result of being thrown out and run over by her rig on Albert street on Saturday. According to eye-witnesses, the collision threw Mrs. Smith into the wheel of Harvey's grocery wagon, which was just turning into Albert street from Sydenham street.

The collision threw Mrs. Smith to the ground and the wheels passed over her body. She was picked up unconscious and taken to the hotel.

Three local doctors were called. It was feared that several ribs were fractured and also that she may have sustained internal injuries.

She is sixty-three years of age.

## LOEW'S WINTER GARDEN

Complete election returns will be read from the stage of Loew's Winter Garden Roof this evening during the performance of this week's bill, which is headlined by the convulsing sketch, "When Women Rule," depicting conditions 50 years hence—after the men, ragged, have conquered the women. Marie Russell is a young woman of striking beauty, who appears in a posing act called "A Study in Tan." The Four Musical Avolas are xylophonists from the Winter Garden, Berlin, while Willie Hale and Brother are "different" jugglers. Piano and Gingham present "The Italian and the Irish" in eccentric comedy. Doolie and Evelyn, a boy and girl duo, and others complete the big feature program.

## THE HIPPODROME

With her company of 10 clowns and 15 animals, Mmes. Mace and her burlesque circus, will head the bill at the Hippodrome this week. It is rather an unusual sight to witness a miniature circus on a vaudeville stage, and it requires all of a stage manager's ingenuity to make such an offering a success. Another pleasing feature will be the Primrose Four. They call their act "One Thousand Pounds of Success." As each man weighs over 200 pounds, the title seems particularly apt. The last time that Grace Edmonds appeared in Toronto was with that successful musical comedy, "Oh, Oh, Delphine," when the dainty

## SIXTY YEARS A QUEEN

If anyone entertains the idea that time is withering national affection for the memory of Queen Victoria, the idea will be dispelled by a visit to the pictorial history of her life and reign at the Grand Opera House. The pictures may at once be described as a vindication of the efficacy of the moving picture as an agency for earnest instruction as well as entertainment.

## INDUSTRY FOR CHATHAM.

CHATHAM, June 23.—A special meeting of the city council will be held tomorrow night for the purpose of considering a proposition whereby Chatham will secure a new industry. There is a concern in communication with the city for the purchase of the old Defence Iron Works plant, and the deal will likely be closed tomorrow night. This plant has been on the city's hands for some time and the present proposition is only one of many made in recent years whereby the plant would be disposed of.
