Two fires took place in Peterboro' last Sunday morning, both evidently the work of an incendiary. The one was an old unoccupied wooden building on George street, formerly used for an axe factory, the other being the large stock of tanbark of Messrs. W. Patterson & Son. Everything being wet from the recent heavy rains, the firemen were able to save the adjoining buildings in each case. The loss on the unoccupied building was \$500 to \$600; other fire loss \$2,000. No insurance.

LAST week the Town Council of Peterboro', Ont., passed a by-law authorizing a joint stock company to construct a system of waterworks for the place. This company proposes to lay down the pipes, and establish the system without bonus or guarantee of any kind, and to furnish water to those desiring it, a maximum charge being fixed by the by-law for hydrants and private consumers. Provision is also made by which the town may purchase the works at a valuation by the end of five years at the option of the Council.

MR. JOHN LAMB, dry goods merchant, St. John street, Quebec, who suspended payment a few days ago, has called a meeting of his creditors for to-day. His stock is estimated to be worth \$8,000, and his assets are said to be about \$6,000. Mr. Lamb began business in 1871 with limited capital, but, by his industry and honesty of character, succeeded in making some money. The late depression appears to have weakened him, and he was occasionally slow in his payments. Having lately been sued by several prominent firms in this city, including one in Quebec, he was obliged to succumb.
