Mayor Church yesterday, is the pith of the findings:

"I respectfully suggest to the board and aldermen the advisability of considering whether the need of the hour does not demand even more than an investigation, an immediate and thoro reorganization of the department under a head who will be free from all social, fraternal or political influences and able by his ability and power to gather up the loose reins and effectually stamp out the evils that exist and restore the force to a state of efficiency."

Altho no charge was laid that Portland street hall was frequented by loose and immoral women it was brought out in the evidence that such was the case, and that on occasions these women had been in the sleeping rooms of the hall. In connection with certain unnamed charges regarding Noble the judge ruled that as Noble had resigned no good end would be served by going into these as they were more or less of a personal nature, and any evidence brought out were more or less of a personal na-ture, and any evidence brought out would not affect the department any way, as Noble was no longer an any way, as Noble was no longer an aspirant for the position of chief.

I want every sufferer from any form of rheumatic thouble to try this marvelous healing power. Don't send a cent: simply mail your name and address and I will send it fies to try. After you have used it and it has proven itself to be that long-looked-for means of curing your Rheumatism, you may send the price of it, one dollar, but, understand, I do not want your money unless you are perfectly satisfied to send it.
