

NEW WATER JACKETED CUPOLA FURNACE.

B. W. KEIM'S New Water Jacketed Cupola produces superior castings with a saving of a labourer and ten per cent. of a saving in metal and fuel. It is especially adapted for the use of stove, brass and iron foundries, also for the treatment of phosphor-bronze, copper and bell metal. It is so constructed that by the addition of 1 1/2 per cent. of aluminum a steel casting can be produced. It requires little, if any, repairs, and the bottom need not be dropped for months. Estimates furnished for portable reduction works for the smelting of gold, silver, lead or copper ore. Assaying and analyzing promptly attended to by the best of chemists. Your correspondence is solicited. Send for illustrated catalogue.

WANTED.—Reliable parties to introduce the Hartsfeld Automatic continuous and improved economical Coke and Charcoal Ovens of any capacity.

Also, lately improved portable reduction works and prospecting hand-power diamond bit rock drill that will bring up a solid core 300 feet. Extraordinary inducements.

GRATEFUL—COMFORTING.

EPPS'S COCOA.

BREAKFAST.

"By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of the well-selected Cocoa, Mr. Epps has provided our breakfast tables with a delicately flavoured beverage which may save us many heavy doctors' bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame."—Civil Service Gazette.

Made simply with boiling water or milk. Sold only in packets, by Grocers, labelled thus:
