

discussion of the Dominion and the provinces respectively. He has formed a high opinion of the success of the Canadian Federal system."

—*Belfast Weekly News*, March 12th, 1914.

"The Canadian Constitution has now been on trial for nearly half a century. It is peculiarly opportune at the present moment, when the principles of Federalism are under consideration in the United Kingdom, and when a not inconsiderable section of the electors are attentively following the gravest constitutional crisis that has occurred since the opening year of the last century, that there should have been published an able and systematic exposition of the working of the Canadian Constitution, written by a well-known authority upon constitutional law. . . . He has already gained recognition by two works of more than ordinary merit dealing with Parliamentary government in Canada, and it is not too much to say that the present volume will take the highest rank as an authoritative pronouncement upon the working of the Federal system in Canada. . . . In studying Mr. Lefroy's book, one fact is vividly impressed upon the reader—the great success that has attended the working of constitution owing to its adaptability and flexibility and the wide and generous interpretation that has been given by constitutional lawyers to the provisions of the British North America Act of 1867."

—*United Empire*, April, 1914.

"In the main, the book deserves the highest commendation. It is not merely a work of reference for especial points, but may be read with pleasure by all students of political science. . . . Having a subject-matter which is not too extensive (whatever its intensive difficulties and depth may be) for complete treatment in a literary form and spirit, the author has done it and himself justice. Points of interest will be found on almost every page. . . . Three of the cases cited on p. 394 were referred to in *Cotten v. Rex*, decided only in November, 1913, by the Judicial Committee, and it cannot be doubted that every one concerned with such an appeal would find Mr. Lefroy's book a mine of information."

—*Law Quarterly Review* for January, 1914.

"It is the result of a most painstaking study and collation of the constitutional questions which have come before the
