ed that it is superior to all others.

25, 40, 50 and 60c

because I have another engagement for

that day, "Martineau, Papal Delegate."

Previous Prelates' Pancreas.

Right Rev. Michael Power was the first

Catholic Bishop of Toronto. He died in

this city Oct. 1, 1847, of typhus, and

his remains were conveyed to their

last resting place beneath the altar of

St. Michael's, which was still unfinished.

As the edifice was not roofed, the funeral

cortege first proceeded to St. Paul's Church,

where the solemn services for the dead were

performed, and the people told their

tribute of respect to the departed. An ad-

ditional evidence of the respect in which

Bishop Power was held by other than mem-

bers of his own flock was seen in that the

shops along the line of the funeral proce-

sion were closed and the streets thronged

by thousands. A handsome marble tablet

now adorns the chancel of St. Michael's

Cathedral and bears a laudatory inscription

in Latin. There also was another tablet

directly over the Bishop's place of sepul-

ture, bearing an English inscription, but

this was removed during subsequent altera-

tions. It read as follows:

Underneath lie the remains of

Rt. Rev. Dr. Michael Power,

Born in Halifax, N.S.

First Bishop of Toronto on the 8th of May,

1842.

He laid down his life for his flock on the

1st of Oct. 1847, being the year of

his age. R.I.P.

The Second Bishop.

The second bishop of Toronto, Rt. Rev.

Dr. de la Courbe, was born in France,

in 1802, and died in France, March 1881.

He resigned his See and had been

away from Canada about 10 years, when

1880 Archbishop Lynch was appointed. He

was born at Clones, County Monaghan, Ire-

land, in 1816, and died at Toronto, May 12,

1888.

Archbishop Lynch.

On Sunday, May 22, Archbishop Lynch

preached in St. Michael's Cathedral, ap-

parently strong and vigorous. On Tuesday

he attended a conference at St. Catharines,

and on the following day he held a conference

at Merriton, and returned ill to Toronto.

Physicians found he was suffering from

congestion of the lungs, and he died on the

following Saturday. There was a wonderful

demonstration of respect at his obsequies

in St. Michael's Cathedral. At the requiem

mass, Cardinal Taschereau officiated and

there were present the Archbishops of

Montreal and Ottawa, and a great number

of bishops and ecclesiastical dignitaries.

Bishop Ryan gave the eulogium on the oc-

casion. The Government of the province,

the City Council and other public bodies

were represented. Protestants joining in

the manifestation of respect, and the

ecclesiastical affairs of the See of To-

ronto were entrusted to Vice-General

Macdonald and Vice-Chancellor Macdonald,

who have since died until the appoint-

ment of the late Archbishop Walsh.

The Archbishop's Successor.

The appointment is, of course, in the

hands of the Pope, the fountain of all

honor in the Catholic hierarchy. The

procedure is that the priests of the

diocese agree upon whom they recom-

mend to the Pope, who considers them

and their merits and the purpose of the

appointment. It may be many months, and

often a year, before the final decision is

announced. The number of both priests

and bishops is kept a profound secret in order

to prevent outside parties exerting any in-

fluence. In the meantime the affairs of the

see are placed in commission.

DROWNED IN THE BASEMENT.

Terrible Electric Storm Strikes

Philadelphia—Peter Schell was

Caught by Rising Water.

Philadelphia, Aug. 3.—The excessive heat

of the last three weeks or more culminated

to-day in one of the most terrific electrical

storms that has ever visited this city. The

rainfall was an almost unbroken

down-pour, and the water rose in the

basement of the local water bureau. In one hour and

three quarters, five and four-fifths inches

of rain fell. There was an almost unbroken

down-pour, and the water rose in the

basement of the local water bureau. In one hour and

three quarters, five and four-fifths inches

of rain fell. There was an almost unbroken

down-pour, and the water rose in the

basement of the local water bureau. In one hour and

three quarters, five and four-fifths inches

of rain fell. There was an almost unbroken

down-pour, and the water rose in the

basement of the local water bureau. In one hour and

three quarters, five and four-fifths inches

of rain fell. There was an almost unbroken
