

FORMER LONDONERS, CHEMISTS, AT THE DESTROYED POWDER MILL

Relatives Here Hopeful That Frank Holman Was On His Vacation When Explosion Occurred—G. C. Benson Also an Employee of Curtis & Harvey.

Frank Holman, formerly of this city, is a chemist in the employ of the Curtis & Harvey Company, whose powder mill at Rigaud, Que., was blown up this morning with heavy loss of life.

Relatives in this city are hopeful that Mr. Holman had not yet returned to Montreal from Rigaud, Que., where he recently visited, or that he had not arrived at the plant when the explosion occurred. Although Mr. Holman resided at Rigaud when at work, he is known to have been away within the last few weeks. It is considered probable that he had not returned, although anxious relatives in the city had received no definite word as to his safety up to 2 o'clock.

Mr. Holman has been on the chemical staff of the big powder plant since the commencement of war. He was physical instructor at the London Y. M. C. A. for some years.

G. C. Benson, son of George Benson of Dufferin avenue, is a chemist at the Curtis & Harvey plant at Rigaud. No word has been received from him by anxious relatives. He and Mr. Holman were employed at the same place, although the factory blown up may not have been the one at which they worked.

plant, were blown down by the force of the explosions.

The whole countryside was covered by a dense copper-colored smoke at 10 o'clock.

A special train of doctors and nurses left Montreal at 10:30 for the scene of the explosion.

MISSING LIST IS BIG.

Montreal, Aug. 18.—Passengers on a C. P. R. train who passed near the scene of the disaster placed the number of dead from the first explosion at 20. They said the missing list is big, because everybody in the factory rushed into the open country when the first explosion occurred and had not returned when their train left for Montreal.

DRAGON VILLAGE ABLAZE.

The extent of the explosion may be judged by the fact that two farm houses, over a mile from the plant, were destroyed.

At noon the village of Dragon was blazing, and it looked as if it would be totally destroyed.

At the local office of Curtis & Harvey, it was stated that the cause of the explosion, which apparently set fire to a portion of the plant, was not known. It was thought that not more than 300 would be working in the section of the factory affected, and that probably many of these would have time to escape.

FIRE RAPIDLY SPREADS.

The fire probably, it was believed, spread to other portions of the factory, causing the two other explosions heard. Men and women working in them would have time to get away.

Curtis & Harvey officials were hopeful that the death list would not amount to as many as 250, the estimates given at points near the plant.

RETURNED SOLDIER RENEWS CONVERSION

One soldier who returned on Friday to London with the detachment invalided home lost no time in keeping a vow which he had frequently made in hours of great danger during his eighteen months' service in the front lines. He was numbered with the congregation that attended the evening service in the city mission hall, where he had been baptized.

HOLLAND HOPES QUEEN WILL BE ARBITRATOR BETWEEN BELLIGERENTS

Rome, Aug. 18.—Reports received from Holland maintain the strictest neutrality concerning the present dispute. It is supposed that hopes are entertained in Holland that both groups of belligerents will eventually ask the Queen of the Netherlands to act as intermediary, thus making it possible to remain aloof of any attempt to bring about peace which is destined to fail if understood by both sides.

THE LOCAL MARKET

Vegetables were scarce on the market this morning, carrots and beets being in unprecedented abundance and selling at the lowest rates of the season. No substantial reductions in other vegetables were made, notwithstanding the large offering, but one or two new vegetables made their first seasonable appearance when offered today.

Beets and carrots sold from 15c to 25c per dozen bunches, making it practically impossible for the grower to realize any profit on his offerings.

Corn advanced slightly over yesterday's price and sold in good demand from 25c to 30c today. The quality of corn in the cob is fairly good, despite the early unfavorable weather for its growth. All over the district corn crops, which were thought to be of the poorest quality and quantity in years, look much better than they did a few days ago, and it is expected that the crop will be as good as in any previous year, although somewhat heavier.

Old oats declined to 15c and 15c per cwt. The offering was extremely plentiful and the demand brisk, but because new oats will make their appearance about the first of September, there has come down the price of the old variety to 12c to 15c. Bulk sales at 15c to 18c.
