

## BECK APPLIES FOR ORDER-IN-COUNCIL FOR RADIAL PROJECT

Plans To Establish Hydro Line Hamilton To Elmira, Via Galt.

TORONTO, Oct. 15.—Application was made today by the hydro-electric power commission to the Ontario Government for two orders-in-council to permit of further steps taken in connection with the proposed system of radial railways in the province.

The one order-in-council is to permit the commission to enter into negotiations with the Detroit United Railway Company for the acquiring of the property of the Sandwich, Windsor and Amherstburg Railway Company and the Windsor Tecumseh Company, which also includes the electric distribution systems in the municipalities of Windsor and Sandwich. The amount involved is over \$2,000,000.

The second order-in-council is to enable the commission to have bylaws submitted to the electors of the several municipalities on the line of the proposed railway from Hamilton to Elmira via Galt, covering the estimates and agreements for the construction and operation of the line.

"If the electors vote favorably, this will be the first railway that the commission will operate under the act of 1914," Sir Adam Beck said today, in announcing that the order-in-council had been applied for. "Although we are, of course, operating between forty and fifty miles of coast railway at Niagara Falls and the municipal railway at Peterboro for the Provincial Government. There are thirty-five miles of road railway and forty-five miles of track. The financing will be done by the issuing of bonds by the hydro-electric commission."

## INFLAMMATORY RHEUMATISM PERMANENTLY CURED

New Brunswick Lady Gives Full Particulars of Her Recovery.

There are many types of rheumatism, but none worse than inflammatory. It was this kind that almost killed Mrs. Edw. Warman of Kent Jct., N.B. Every known remedy she tried, different doctors gave their advice, but the disease increased.

Weak and despairing, she was at her wits' end when the remarkable cure of Thos. Cullen published. This gentleman was cured of rheumatism by "Ferrozone." Consequently Mrs. Warman used the same remedy. Here is her statement:

"For five years I have been rheumatic. I tried various forms of relief without success. The disease increased, settled in my joints and muscles. These swelled, caused excruciating pain and kept me from sleeping. My limbs and arms stiffened, my shoulders were lame and prevented me from working. Week by week I was losing strength and despaired of finding a cure. It was a happy day I heard of Ferrozone. Every day I took Ferrozone I felt better; it eased the painful joints, gave me energy and a feeling of new life. Ferrozone cured my rheumatism. I cured it so that not an ache has ever returned. Even damp weather no longer affects me."

Ferrozone has power to destroy Uric Acid, neutralize and enrich the blood, and therefore does cure the worst cases. Mrs. Warman's statement proves this. By removing the cause of the disease and building up a reserve of energy, Ferrozone is certain to cure. Sufferers, isn't it about time to stop experimenting? Ferrozone is a CURE, order today, \$60 per box, or six for \$2.50, and get all dealers or direct from The Cataract Company, Kingston, Ont.

## WHAT TO DO WHEN NERVES GO WRONG

A SPECIALIST'S ADVICE.

Men and women who suffer from weak nerves, who tire easily, who sleep, have brain fog, low vitality, general weakness, nervousness, irritability, lack of will power, or any of those symptoms that so surely arise from poor, unsteady nerves, or any nerve force run low, should try a little Ferro-Peptide with their meals for a few days. The results, this preparation is the greatest nerve tonic, up stimulant and nerve vitalizer ever known for putting the good old nerves into a tired, run-down and shattered nervous system.

Here is a test worth trying. The next time you feel tired, blue, or when your nerves are fairly crying out, take a Ferro-Peptide nerve tablet. Then wait for just ten minutes, and note results. Ferro-Peptide seems to go straight to the nerve cells and starts to work the minute it reaches them. It brings a ten-minute change from that awful dull, weak, lazy, don't-care hang feeling, to brightness, strength, clear-headedness, courage, and calmness and strengthens the nerves of people who get the "jumps" and flutters, and gives them power, power and tremendous reserve energy. Ferro-Peptide is absolutely harmless, contains no dope or anything of the kind, and is always safe, easy, pleasant and efficient. Standard Drug Co., and many other leading druggists in London and vicinity sell it in large boxes—48 tablets to a package—on an absolute guarantee of satisfaction, or money back.—Adv't.

## TRY MAGNESIA FOR STOMACH TROUBLE

It Neutralizes Stomach Acidity, Prevents Food Fermentation, Sour, Gassy, Stomach and Acid Indigestion.

Doubtless if you are a sufferer from indigestion, you have already tried pepsin, malt, soda, charcoal, drugs and various digestive aids and you know that things will not cure your trouble. Some cases do not even give relief before giving up hope and deciding you are a chronic dyspeptic just try a little of this commercial magnesium citrate, oxide or milk, but the purest and most effective of all is the powdered or tablet form. Take a teaspoonful of the powder or compressed tablet with a little water after your next meal, and see a difference this makes. It will not only neutralize the dangerous, harmful acid in the stomach, but it will also act as a powerful laxative, clearing your food to ferment and sour, and the bloated or heavy lump in your stomach that seems to follow most things you eat. It will find that provided you take this saturated magnesium immediately after a meal, you can eat almost anything and enjoy it without any fear of pain or discomfort to follow. Moreover, the continued use of a saturated magnesium cannot injure the stomach in any way so long as there are any symptoms of acid indigestion.

## Canadian Trade Has Fallen Off \$32,575,418 First Half of 1919

OTTAWA, Oct. 15.—A decrease of \$22,575,418 in the grand total of Canadian trade for the six months of the fiscal year ending September 30, as compared with the same period in 1918, is shown by the monthly trade statement issued through the customs department.

The total value of Canadian trade for the six months period this year was \$1,054,457,402, while last year it was \$1,087,032,820. The decrease is largely due to a fall of \$22,575,418 in the value of merchandise imported into Canada. During the six months period last year imports to the value of \$484,532,214 came into the country, while this year they totalled \$461,956,810.

A drop of \$11,142,419 in the total value of domestic merchandise exported, as compared with the 1918 figures, is shown by the statement, but exports of foreign merchandise increased by \$11,229,805. The total value of domestic merchandise exported during the six months period this year was \$597,445,095, while last year it was \$608,588,514.

## Flying Parson Still Leads In The Air Derby

Death List Increased by Two When Plane Crashes in Utah.

SAN FRANCISCO, Oct. 15.—Four airplanes were on their return trips today in the army transcontinental air derby. The leader, Lieut. B. W. Maynard, was almost half way across the continent tonight, having stopped over in Sidney, Nebraska, in his eastbound flight.

The death list in the race was increased by two late today, when Lieut. French Kirby and his observer, Lieut. Stanley C. Miller, westbound, were killed in a crash near Castle Rock, Utah.

## CONFIRMS REPORT THAT GERMANY WAS INVITED TO ASSIST

Peace Conference Did Send Communication of This Nature.

LONDON, Oct. 15.—In connection with the report from Germany that Britain had invited Germany to co-operate in the coercion of Soviet-Russia, the correspondent of the Associated Press learns that a communication of this character was made to Germany by the peace conference.

Word of the request to Germany to participate in a blockade of Soviet-Russia came first from Berlin, and was later followed by reports from neutral states, intimating that they too, had been requested to join in a blockade. No definite announcement of such contemplated measures had, however, been made from Paris or London, causing adverse newspaper comment. It was stated in Paris yesterday that the United States did not join with the Entente in asking Germany to co-operate in such a blockade, and the American delegation there did not admit any American participation in an actual blockade against Russia.

## CHURCH OF ENGLAND CONGRESS IN DEBATE ON SPIRITUALISM

Dean of Durham Says It Fills a Void in Practice of the Church.

LEICESTER, England, Oct. 15.—(By the Associated Press).—The Congress of the Church of England today held a warm debate over spiritualism, which started through an attack from the Rev. Wm. H. Inge, dean of St. Paul's, London, who is known to the newspapers as the "gloomy dean," because of his somewhat despondent views on present-day life.

The Rev. Mr. Inge, dean of St. Paul's, London, who is known to the newspapers as the "gloomy dean," because of his somewhat despondent views on present-day life, said that the foundations of Edgar Chapel at Glastonbury were discovered through communications received by automatic writing. I think spiritualism has come to fill a void in church practice, and because of the coldness of the services, intercessions for the departed should be restored, I believe.

The Rev. J. A. Magee, the last speaker, was loudly applauded. He said: "Sir Arthur Conan Doyle is moving from city to city, ministering to a popular craze. I challenge Sir Arthur to deny that spiritualism is perilous to the mental, moral and physical health. Every second or third young lady one meets now imagines herself a modern St. Theresa."

Spiritualism is undergoing a remarkable revival in England, apparently partly through the hopes of many war-bereaved persons to communicate with lost relatives. The revival is said to be due largely to the writings of Sir Oliver Lodge and popular discussions in which Sir Arthur Conan Doyle figures as the chief champion of the cult.

The final day set to reach an objective of \$10,000 for the Brantford nurses' and soldiers' home, witnessed the ten teams making good reports. A letter subscription was received from Lloyd Harris of \$1,000. Mr. Harris is returning to Canada on Oct. 21.

Returning Officer Wade has asked for instructions in the matter of soldiers' lists were prepared being allowed to cast their ballot by taking a special oath.

## U. F. O. CANDIDATE RAPS SINCLAIR IN OXFORD

TILLSONBURG, Oct. 15.—A. T. Walker, O. F. U. candidate in South Oxford, held his first public meeting in the town hall this evening when labor and farmers tried to get together and made a bad fizzle of the whole game. The audience consisted of 80 persons, of whom 76 were farmers from the district and the remainder labor men of the town. E. A. Hookway of St. Thomas, and W. K. Sanderson, chairman of the hydro commission, of St. Thomas, spoke in the interests of labor, while Mr. Walker put forth the farmers' platform.

Mr. Walker in speaking of temperance repeatedly pulled V. A. Sinclair, the present Conservative member, over the coals very hard because he was trying to get the vote whilst he was elected on the liquor platform in the last election by a majority of one.

On Thursday evening Alex. Rose, Liberal candidate, will address a public meeting in the town hall, assisted by W. G. Charlton, provincial organizer; Mayor Buchanan, of Ingersoll; Dr. Rogers and Lieut. T. B. Maybery. Mr. Rose has by far the best chance in the three-cornered fight.

## LADIES' AUXILIARY OF Y. M. C. A. ELECTS OFFICERS AT GALT

GALT, Oct. 15.—The Ladies' Auxiliary of the Y.M.C.A. has elected the following officers for the ensuing year: President, Mrs. W. W. Wilkinson; first vice-president, Mrs. T. T. Altkin; second vice-president, Mrs. Frank Brown; secretary, Miss Louise McAustan; assistant secretary, Mrs. Ward-Vair; treasurer, Mrs. Marsh Preston; assistant treasurer, Mrs. E. M. Grove.

OGHTON—MARSHALL. The quiet marriage took place this afternoon at the Central Church manse, by Rev. M. B. Davidson, of Miss Jessie Marshall, one of the city's prominent young ladies, to Charles Oughton of St. Catharines, formerly of Galt and an "original find."

DIES OF WOUNDS. Pte. Lionel W. Longhurst, eldest son of Mr. and Mrs. A. J. Longhurst, 72 Stanley street, passed away at the Euclid Hall Hospital, Toronto, death being due to the wounds he received in action. He was born in England, and came here in 1913. He enlisted with

his brother Leonard in the 11th Battalion. The brothers were on the same machine gun crew, and Leonard was killed at Arras August 8, 1918, and Lionel was wounded at the same time. On recovering he went back to the lines in October, 1918, and was again wounded. Since being returned to Canada in February he has been in Toronto military hospitals. The military funeral will take place on Thursday.

ST. PATRICK'S, RALEIGH. MERLIN, Oct. 15.—Report of St. Patrick's School, Raleigh, for October Names in order of merit. Junior IV.—Annie Drew, Leona Eagan, Harold Wellwood and Ellen Dillon (equal), Leo Gilhuly, Gordon McKeon. Senior III.—Marten Eagan, Alphonse McKeon, Grace Wellwood, Allan Drew, Arthur McKeon, William Hickey, Albert

Gilhuly, Cecil Finlin. II.—Walter Drew, Thecla Lahey, Herbert Dillon, Lucy Gilhuly, Francis Phelan, Joseph McKeon. Senior I.—Francis Eagan, Merle Gilhuly and Norman Phelan, Rose Lahey, Frances Hickey, Mary Gilhuly, Ellen Eagan. Junior I.—Dorothy Drew, Ada Wellwood. Teacher—Mary A. Murphy.

## Tobacco Habit Dangerous

says Doctor Connor, formerly of Johns Hopkins Hospital. Thousands of men suffering from fatal diseases would be in perfect health to-day were it not for the deadly drug, Nicotine. Stop the habit now before it's too late. It's a simple process to rid yourself of the tobacco habit in any form. Just go to any up-to-date drug store and get some Nicotol tablets; take them as directed, and let the pernicious habit quickly vanish. Druggists refund the money if they fail. Be sure to read large and interesting announcements by Doctor Connor soon to appear in this paper. It tells of the danger of nicotine poisoning, and how to avoid it. In the meantime try Nicotol tablets; you will be surprised at the result.

# Beware of "Light" Beer

## The So-called "Light" Beer of the Ballot is Intoxicating!

THE so-called "light" beer, as proposed by question 2 of the Referendum Ballot, is intoxicating, and beer drunkenness is worse than whiskey drunkenness.

The beer of the ballot is 2.51% alcohol by weight.

Great Britain fixes the limit of non-intoxicating beer at 1% alcohol.

The United States has fixed the limit for non-intoxicating beer at one half of one per cent.

## What the Law Says

The law of Ontario, both under the old Ontario License Act and the present Ontario Temperance Act, says "any liquor containing more than 2.50% Proof Spirits (1.15% alcohol by weight) shall be conclusively deemed to be intoxicating."

The Ontario Referendum Committee says that "any liquor containing 2.51% alcohol by weight, equal to 5.46% Proof Spirits, shall be conclusively deemed to be intoxicating."

Three 12-ounce bottles of 2.51% Beer contains as much Alcoholic Poisons as 2 1/2 ounces of whiskey

## What the Doctors Say

MEDICAL men and common experience agree that 2.51% alcohol in beer makes it intoxicating.

Dr. Harvey Wylie, President of the United States Pharmacopoeial Convention, says alcohol produces intoxication without regard to its quantity. "A little of it produces a small degree of intoxication, a lot of it a very advanced degree of intoxication, and a certain quantity of it produces death."

Dr. Arthur Dean Bevan, President of the American Medical Association, presenting a sworn statement, said:

"There can be absolutely no doubt but that beer containing 2 1/4 % alcohol (only a fraction of 1% stronger than proposed on the Referendum

Ballot) is an intoxicating beverage in that an individual can become drunk on the amount that is frequently consumed."

Dr. Edwin F. Bowers says that the alcoholic decomposition of the hops used in brewing produces lupulin, a poison that attacks every vital organ of the body.

Dr. John M. Dodson, Dean of the Medical Department of the University of Chicago, says: "Beer-drinking has a very pernicious effect upon nearly every organ of the body. It produces disease of the stomach and digestive tract, of the heart and circulatory system, of the kidneys and the liver, and of the nervous system. In addition to this, it lessens the vigor and vital resistance of the whole body, and makes the beer-drinker very much more susceptible to infection, such as pneumonia and other diseases."

T. B. Macaulay, President of the Sun Life Assurance Company of Canada, says: "Beer drinkers have not merely a heavier mortality than total abstainers but a heavier mortality than strictly moderate spirit drinkers. This is well recognized in life assurance."

Police Magistrates and officers of the law say that Beer-drinking makes men brutal and cruel, and is often the cause of coarse, brutal, cruel and disgusting crimes, particularly against women and children.

Common observation shows that Beer-drinking makes men and women coarse, fat, bloated and ugly, and subjects them to disease.

Social writers and students report that Beer-drinking among children has affected the stamina of the race in certain parts of Europe, enfeebling boys and girls before they have become full grown, and producing progressive degeneracy.

Drinkers themselves admit that Beer drunkenness is worse for the drinker than whiskey drunkenness. It takes the system longer to recover.

Beware of this so-called "light" beer

# Mark X under every NO

Answer questions 2 and 3 and every other question on the Referendum Ballot by marking X under the word NO

# Ontario Referendum Committee

JOHN MACDONALD, Chairman.

D. A. DUNLAP, Treasurer.

ANDREW S. GRANT, Vice-Chairman and Secretary (1001 Excelsior Life Bldg., Toronto).
