Pool and billiard tables will be installed and all sorts of anusem. It is planned to make avery demant. It is solar ad all sorts of anusem. It is planned to make avery demant.

THE TORONTO WORLD

## **BIG PROGRAM FOR ATTRACTIONS AT TORONTO THEATRES EMPIRE CONGRESS**

Wide Variety of Topics for Fine Vaudeville Numbers for Discussion When Members Pantages Saturday Opening Meet in Toronto. -Dumbells Continues.

Resolutions on a variety of subjects will come before the ninth congress of chambers of commerce of the British Empire, which opens in Toronto next with more than 100 chambers esting. Some of his literature has

month, with more than 100 chambers represented. London chamber wants an imperial states fiscal bureau on the "condi-tion and resources of empire." Syd-ney, Australka, desires an imperial in-vestigation board on ocean freight rates and sea communication. Man-chester would promote cotton growing in the empire, while the congress or chester would promete cotton growing in the empire, while the congress or-ganization committee urges a com-mercial survey of timber available in the empire. Trhidad wants an all-British direct carle. Sydney asks a scheme of censorship "which will not tend to create commercial chaos on the outbreak of war." London cham-ber emphasizes pecessity of imperiate a position most unjoue in the accurate accurate a set of the set the outbreak of war." London cham-ber emphasizes necessity of imperial wireless service. Birmingham sup-and all-red routes. Six chambers, in-ports creation of an imperial air fleet cluding Toronto and Montreal, have resolutions dealing with commercial relations between the motherland and the dominions. the dominions. imperial Propaganda. London would have wider circula-tion of trade journals for imperial propasanda, and also suggests prefer-ential employment for ex-service meters. opens Thursday.

institution existed in Canada today, and that no more fitting memorial to the heroic dead could be eracted to asceure additional main institution devoid to the scien-tific study of the alleviation of human lls.
