At the ladies' meeting held in the Oddfellows' Hall, the principal speaker was Miss Gray, who dwelt largely on domestic science subjects. The ment afternoon meeting was held in the Mussel of Hall and was addressed by O. W. Nash of Toronto and Simpson Ronnie of, Scarboro. In the absence of President W. F. Wei'r of Prince Albert, the chair was taken by J. L. Smith, who, with his wife, has been a strong supporter of the institutes from their inception.

Mr. Nash took for his subject "Insects and Growth of Plants," and despite the scientific treatment of the same he gave a most intelesting address, Among other things he advocated the fumigation of every shoot, and tree or shrubin the nurseries before being shipped to the customer. VERY FEW PEOPLE

Are Free From Some Form of Indigestion.

Very few people are free from some form of indigestion, but scarcely two will have the same symptoms. Some suffer most directly after ea ing, bloating from gas in stomach and bowels, others have heartburn or sour risings, still others have palpitation of heart, headaches, sleeplessness, pains in chest and under shoulder blades, some have extreme nervousness, as in ner-vous dyspepsia.

But whatever the symptoms may be,

the cause in all cases of indigestion is the same, that is the stomach for some reason fails to properly and promptly digest what is eaten.

This is the whole story of stomach This is the whole story of stomach troubles in a nutshell. The stomach must have rest and assistance and Stuart's Dyspepsia Tablets give it both by supplying those natural digestives which every weak stomach lacks, owing to the failure of the peptic glands in

to the failure of the peptic glands in the stomach to secrete sufficient acid and pepsin to thoroughly digest and assimilate the food eaten. One grain of the active principle in Stuart's Dyspepsia Tablets will digest 3000 grains of meat, eggs or other whole-some food, and this claim has been some 1000, and this claim has been proven by actual experiment, which anyone can perform for himself in the following manner: Cut a hard boiled egg into very small pieces, as it would be if masticated; place the egg and two or three of the tablets in a bottle or jar containing warm water bested to 98 deor three of the tablets in a bottle or jar containing warm water heated to 98 degrees (the temperature of the body) and keep it at this temperature for three and one-half hours, at the end of which time the egg will be as completely digested as it would have been in the healthy stomach of a hungry boy.

The point of this experiment is that what Stuart's Dyspepsia Tablets will do to the egg or meat in the stomach and nothing else will rest and invigorate the stomach so safely and effectually. Even a little child can take Stuart's Tablets with safety and benefit it its digestion is weak and the thousands of cures accomplished by their regular cures accomplished by their regular daily use are easily explained when it is understood that they are composed of

Cameron and Currie Declared Safe by Justice Maclennan-Osgoode Hall Cases.

The Liberals hold West Huron and Prince Edward County.

Justice Maclennan yesterday confirm ed the decision of the county judge. Of three ballots, one for Holmes and two for Cameron, that cast for the appellant was not initialed on the back by the D.R.O. because he had torn off in error two ballots and the initials went on the wrong one. The ballot is disallowed. Of the Cameron ballots, one was torn in two and pinned together, and the other had been wrongly initialed. Both were allowed. Cameron therefore holds the seat by two majority. In the Prince Edward County appeal, Justice Maclennan holds that in case of illness a deputy judge may conduct a recount in place of the senior county judge. As the returning officer took under oath the statement of the D.R.O. in Hallowell sub-division, the failure of the D.R.O. to fill in his statement of the poll is declared immaterial. Of two ballots in final dispute, one had a well-informed cross in the Norman division, but in Currie's division the cross that had been placed there had been erased with some sharp instrument. This ballot was allowed for Norman, as was also the other, which had been marked opposite his name with the figure 2. Currie's majority is 2.
