U. S. TARIFF REVISION.

Washington, June 4.—The fact that Chairman Payne, of the House Committee on Ways and Means, which is to enquire into the subject of tariff revision, does not intend to call his committee together during the recess of congress, is attributed to a desire not to encourage tariff revisionists. "All that will be done" said Mr. Payne yesterday, "is that the executive departments notably the treasury department, will be asked to collect certain data in regard to the tariff schedules and have the information ready in time for the next regular session of congress."

The administration programme, now, it is asserted, is that Secretary Taft in the event of his nomination and election, shall convene a special session of the sixty-first congress immediately after his inauguration to take up the subject of tariff revision. In the event that a Democrat is elected this fall, President Roosevelt will call congress together for tariff revision next November.

The complainant, Miss Lizette Burns, seeks to recover twelve days wages, at the rate of \$10 per month, from A. W. She also alleges that Mr. Gay ordered her from the house, "curbed" at her and "told what he would do" if she did not get out.
