Ivangorod Has Gone The Way of Warsaw Russian Fortress Has Been Captured by Enemy

Riga Likely to Hold Out But Short Time—Meanwhile Czar's People Are Far From Being Discouraged, For Grand Duke's Army is Intact

NO DOWNHEARTEDNESS THERE

Petrograd, Aug. 6.—The Russian newspapers today are unanimous in stating that Russia's determination to pursue the war to a victorious end, has been strengthened by the enforcement of Warsaw. The Reich says: "So long as the army is intact, we can confidently face the future."

Berlin, Aug. 5. (Via London, Aug. 6, 11.30 p. m., delayed in transmission)—The Russian fortress of Ivangorod, situated on the Vistula river, 45 miles southeast of Warsaw, was captured by the Teutonic armies today.

Vienna, Aug. 6.—The occupation of Ivangorod, yesterday, by Austro-German forces, is announced in an official telegram from the front.

Deeds, Aug. 6.—The evacuation of Ivangorod apparently was admitted last night by Petrograd in an official statement which said:—

"In the Ivangorod district the Russians have crossed to the right bank of the Vistula blowing up the bridges behind them."

A statement issued later in the night explained that the Ivangorod forts were not properly constructed for modern warfare. This statement was made "in reply to the Austrian claim that a great victory was achieved in Ivangorod's capture."

It further states that all the provisions in the city were "methodically" removed, after which the Russian rear guard destroyed the concrete base supporting the brick casemates of the forts, blew up the bridges and crossed the river.

Ivangorod is located at the confluence of the Vistula and the Vepres rivers. It is situated on the railroad running to Lukow and Best Li-Tovsk and also on a line connecting with Warsaw.

FATE OF RIGA BELIEVED SEALED
London, Aug. 6.—(The Russian war office has set aside \$25,000,000 to help pay the cost of the removal of Warsaw mills and factories to the interior of the empire, says the Petrograd correspondent of the Times.)

The Warsaw retreat is the least direct outcome of engagements on the Vistula river. She did this offensive to further develop it, it possibly will be directed against Elzavotok and Brest Litovsk from the north.

"It is quite likely that Field Marshal Von Macken will transfer his troops from the Chelm district to co-operate in this attempt. Another factor was the auxiliary operation on both banks of the Vepres against Lukow, intended to cut the Ivangorod-Lukow line.

"Today's news warrants the conclusion that the fate of Riga is sealed. The country on this side of the Miusa, where fighting is proceeding at present, does not afford the Russians a line capable of stemming the enemy's advance but it is suitable merely for rear guard actions. The river Dvina is intrinsically a more formidable obstacle, but as Riga is situated on both sides of the river, it does not afford opportunities for active defence. Two corps of General Von Bredow's army already have reached the Miusa. The evacuation of Riga is in full swing. The streets are packed with dense crowds and the stations are besieged with those anxious to leave.

Mitau Also
"The evacuation of Mitau was effected by the post office employees and the police on last Saturday. German residents were really delighted at the arrival of their countrymen. They had made no secret of their sympathies."

RIGA LIKELY TO BE TAKEN SOON
London, Aug. 6.—Discussing the situation around Riga, the sixth city in the Russian Empire, the Petrograd correspondent of the Morning Post says:—"Russian military forces seem merely to be observing the German advance."

EVENTS IN THE WAR JUST ONE YEAR AGO TODAY

Many interesting dispatches were contained in the Times of a year ago today, August 6, pertaining to early events in the war. The Bank of England reduced its rate of discount to 6 per cent. A cheering message was received from the North Sea that two German warships had been captured, and that a wireless had been intercepted in which it had been stated that the German Lusitania had been sunk by a Britisher. All these reports proved correct. The Goeben and Breslau were active in the Mediterranean.

The Australian navy was pledged to the aid of Britain on this day a year ago, by England's acceptance of her offer.

In an attempt to capture the Belgian city of Liege, the Germans lost heavily, but they were not discouraged.

Chief interest centered in the doings of the British navy in rounding up the German ships of war, and in the despatches that Italy would turn against Austria, though the intention was not fulfilled for many months.

The Japanese, it was announced a year ago today, were getting ready their fleet for action.

Orders were issued to the British cabinet secretary of war.

The war was much interest in preparations for Canada's participation in the war. The various harbor projects had been proposed and submitted to the British cabinet.

Many applications for places with military service were received, it being announced that the New Brunswick division of the imperial force to go overseas was to be organized at once.

MANITOBA CONTEST TODAY

Winnipeg, Aug. 6.—Polling is proceeding quietly and steadily today. Several party organizations, particularly in the country districts, complain of an apathetic electorate and of difficulty in getting out the vote. But there seems a strong enough undercurrent of interest to bring out the normal vote. Whatever lethargy there is may be ascribed to the conviction of nine out of ten people that the Norris government is bound to win by a big margin.

NEED FOUR KITCHENS FOR THE 26TH

The Times yesterday said that a battalion should have four field kitchens. This is confirmed by the following from the Halifax Chronicle:—

"Captain Charles Holt of the 25th Battalion, who has returned from soon being able to return to the fighting line. Asked by your correspondent as to the utility of the travelling field kitchens presented by the people of Nova Scotia, through The Morning Chronicle, Captain Holt said the Field Kitchens proved of inestimable value to the men of the 25th Battalion. This was especially so on the long marches to the front. The ranges when, had it not been for these kitchens, the men would have had to partake of cold lunches, but with them they always had hot meals well served.

"Had it not had the experience," said Captain Holt, "I could not have conceived of the great convenience of these kitchens. Only two kitchens sent by the 25th Battalion were so far in use, but two more were to be purchased in England with the money sent forward. The men of the 25th Battalion were loud in their praise of Nova Scotia's generous interest in them."
