Water Backs Up Over Railway Tracks and Washouts Are Feared; Highways Already Considerably Damaged

CELLARS FLOODED AT FREDERICTON

Strong Wind Denudes Trees; Telephone System Affected; Lancaster Land Inundated; Catch Basins Plugged and Some Streets Resemble Lakes

TORRENTIAL downpour, which has continued almost una bated since about 8 o'clock last evening, has already done considerable minor damage throughout New Brunswick and other eastern sections of the continent, and threatens more serious results if it keeps up at its present rate. Early this afternoon, without any let-up in sight, the total precipitation was only slightly under Glamorons and Colorful four inches, with seven hours still to go, in which the record of 4.85 inches, recorded in August, 1924, in a 24-hour period, might
