EMPIRE PAPER IS A TRIUMPH FOR CANADA

Continued from Page 1

out the definite assent of their own governments.

In the change recommended in the King's title, the term "United Kingdom" disappears. The change, it is explained, is necessitated by the Irish Free State becoming a dominion. The new title will read:

"George V., by the grace of God, of Great Britain, Ireland and the British Dominions beyond the seas, king, defender of the faith, emperor of India."

On the position of a governor-general, the report observes, "in our opinion it is essential consequence of the equality of status existing among the members of the British commonwealth of nations that the governor-general of a dominion is a representative of the crown, holding in all essential respects the same position in relation to the administration of public affairs in the dominion as is held by His Majesty the King in Great Britain, and that he is not a representative or agent of His Majesty's government in Great Britain or any part of that government."

The report recommends, however, the appointment of a special committee to consider statutory provisions authorizing disallowance of dominion legislation; the competence of the dominion parliaments to give their legislation extra-territorial effect; the practicability and most convenient method of giving effect to the principle that each Dominion Parliament should have power to give extra-territorial operation to legislation, where such operation is ancillary to the provision for peace and order and good government of the dominion; the principles underlying the colonial laws, the validity of the act of 1865 and the extent to which any provisions of that act should be repealed in the light of the existing returns between the various members of the British commonwealth.

vs. A. C. D. Wilson Honored By G.W.V.A. Of Saint John

Mrs. A. C. D. Wilson was honored yesterday when the G. W. V. A. "valuable service certificate" was presented to her by the Saint John Branch as a token of grateful appreciation of her services to the local branch. Mrs. Wilson has always been an active and helpful member of the association. During the war she conducted the presentation of "The Man in the Box" and other plays, has been the convener of Poppy Day since it was first celebrated, and was materially assisted the "Vets" in many other ways. The award came to Mrs. Wilson as a surprise, and she was very much pleased on being thus honored by the association. The certificate, which she received very highly, is of beautiful design, and the inscription is as follows:

"The Great War Veterans' Association, Saint John, N. B. Branch, Mrs. A. C. D. Wilson, Wentworth street."

Her service certificate, which is issued in recognition of services rendered and aid materially contributed to the work and efforts of this association in the past, we ask that you please accept this certificate as a token of our sincere appreciation of services rendered by you.

Your sincerely,
SAINT JOHN BRANCH,
Joseph Dryden, President,
G. W. V. A.

Canada To Renew Passage Scheme

LONDON, Nov. 20.—Canada has agreed both to renew the assisted passage scheme for farm worker emigrants and to extend the present land settlement scheme. It was revealed when the report of the land settlement committee was adopted by the Imperial Conference today. The assisted passage scheme, which has been in force since January 1, 1926, will be, with an amendment, extended for two years. Canada's 3,000 family settlement scheme, says the report, is proving so successful that "it has been decided to enter into a further scheme for the settlement of emigrants on crown lands and privately owned lands in Canada."

EIGHT KILLED

BALTIMORE, Md., Nov. 20.—Pulsating search of the cooling ruin of the Norwegian tanker Mantilla, rent apart by an explosion in its hold, while in drydock at Sparrowpoint, early today had accounted for only eight of the sixteen men believed killed. A check made by Captain Nils Danielsen indicated that the death toll included 12 of the Mantilla's crew of 38. Four unidentified bodies were apparently those of seamen. The other bodies recovered were believed those of employees of a ship cleaning company. Of these the body of Amiel Peterson, of Baltimore, was identified.
