### How I Was Wrecking the Lives of My Children

And Suffering Indescribable Tortures Myself Day and Night. A Mother's Terrible Confession.

For some time I had noticed that my two children, a boy of seven and a girl of ten, were becoming highly nervous, irritable and very disobedient. I tried various punishments, even whipping, but they kept growing worse. My own nerves were all "on edge," the least thing put me into a rage. I was too weak to work or enjoy life, and too nervous and irritable to go anywhere. I often suffered from severe heart palpitation and indigestion. I could not sleep at night; I had an almost constant dull aching pain in the back of my neck and head, and frequently a very disagreeable sense of fulness in the front part of my head. I often had severe pains across my back which made me think I had kidney trouble. I could not begin to describe all the tortures and terrible pains which I endured.

Finally I went to a doctor and told him my story. After studying my case, he told me I was the cause of my children's condition. He told me how the system only manufactured so much nerve force, and that this vital fluid of life was stored in the nerve cells, much like electricity is stored in a storage battery and is just as quickly exhausted.

B. said my own highly nervous condition had been a constant drain on the nerve force of my children, and that the constant nervous strain to which I had subjected them had wrecked their highly sensitive nervous organizations. Later all this I found out to be true because after I regained my own nervous poise, and refilled my worn out, exhausted nervous system, and the same was done for my children, I found them to be the nicest, sweetest children in the world—their whole dispositions entirely changed.

The above is a hypothetical case, which a physician says may well illustrate the condition of many children. Homes are wrecked, children ruined, all through exhausted nerve force. Very few people realize the terrible physical and mental tortures often caused by a depletion of the nerve-vital fluid.

In such cases, what you need is to put more force into your nerves and more force into your blood. This is best accom-

### Walnut Two Toned Spanish Suite, \$268

A set that makes you think of a price away up in the hundreds; rich, contrasting tones of Walnut, massiveness, finely ornamented and hand-made throughout on the basis of the Spanish Renaissance—there you have an idea of what appears in our window at \$268 for nine pieces.

Cut cornered table, grooved and bordered in Black Walnut finish, which color schemes prevails in the paneling and otherwise about the 60 inch Buffet. But the double pediment bases command equal attention, as do the fine cuttings and curves in general. The handles are silvered and the narrow windowed China Cabinet holds a linen drawer. Hand buffed leather upholsters the chairs.

A splendid result on a slight outlay. See how it strikes you.
