

THE EVENING TIMES AND STAR, ST. JOHN, N. B., THURSDAY, FEBRUARY 20, 1919

WE were among the first to put up tea in sealed packages.

We were the first to use automatic electric weighing machines so as to insure accurate weights.

We were the first to make known the qualities of the now world-famous ASSAM teas.

And we are now the first to adopt a new package for the better protection of these fine quality teas.

The lead package has served its purpose well for generations, but it was easily broken or torn, allowing not only a loss of tea from the package but exposing the tea to the air, odors and dust that it was so necessary to protect the tea against.

Our new package—the waxed board carton—is stronger, more secure and more completely air tight; altogether the best container for tea that has yet been devised.

WINTER WALKING.

(Rev. George Scott.)
Would you know the joy of living?
Leave behind the city street
When the road is hard as iron
Spurn the miles beneath your feet.
When the keen north wind is ranging
Over every hill and dale
When the ice upon the river
Glitters like a warrior's mail.
Then's the time to go a-tramping
With a heart devoid of care,
Leave behind the city's canker,
Fill the lungs with God's free air.
Doff your furs and go a-tramping,
Laugh at doctors and their pills,
'Tis only weaklings who consume
Their potions and their pills.
Do you fear you're growing morbid?
There's no better cure I know
Than to swing along the highway
Till your heart is in a glow.
Or perhaps you're growing weary
Of the everlasting grind?
A good long day of tramping
Will rejuvenate your mind.
Have you felt the touch of sorrow?
Seen fair fortune's sad reverse,
Still go out into the open
Of God's mighty universe.
There's no better tonic going
For the ills of human life
Than a tramp along the highway
When the frost cuts like a knife.
Swing along then in your manhood
Keeping up a four-mile gait
Then you'll know the joy of living,
Then your heart shall laugh at fate.

BRITISH AIRSHIPS
CAN CROSS OCEAN

New Giant Dirigibles Out-
class Zeppelins and Have
Great Cruising Radius

London, Feb. 19.—(British Wireless Service)—The Daily Mail publishes the first particulars of one of the latest types of British rigid airships, the building of which has been done secretly. These vessels, known as the "B" class, are equal in size to the most successful type of Zeppelin, and the preliminary tests have shown that they will equal, if not exceed, Zeppelin performances.
The first of this type has been built for the Admiralty and was originally designed for ocean going war service. The craft has a length of 670 feet, a diameter of seventy-nine feet and a capacity of 2,000,000 cubic feet. She will carry fuel for a flight of eight days and a speed of at least seventy miles an hour is expected on the trial flight. The weight of the airship in flying trim will be more than sixty tons, including a carrying capacity of between twenty-seven and thirty tons. It is considered by the builders to be capable of a non-stop passage across the Atlantic and back.
For war purposes, this type of airship is armed with machine guns and has a hundred eighty-pound, and eight 250-pound bombs, with machine guns fore and aft and on top.

Fry's Pure Cocoa

THIS "bonnie wee thing" is a FRY'S Cocoa Girlie. Her cheeks are rosy—she's plump and strong—she's a sunny, healthy, romping little Jenny Canuck because she gets FRY'S regularly. She plays harder than most people work—but FRY'S gives her richly back all the spent energy—and more to grow on!
Have you any little "pale faces" at home? Liven them up, build them up now with FRY'S.
