LOCAL NEWS

CONSCIENCE MONEY.
The sum of \$1,000,000,000 was received in a letter addressed to the customs department in today's mail.

TO PLAY IN TRURO.
Miss Mabelle Cole left at noon today for Truro, where she will fill an engagement of two weeks as pianist in the Princess Theatre.

SENT UP FOR TRIAL.
Harry Donahue, charged with stealing a fur from the store of H. Mont Jones in King street, was this morning sent up for trial.

THE LATE MR. BEAMISH.
The late Richard Beamish, whose death occurred yesterday at his home in Winter street, was a well known carpenter, who possessed alike the respect of his customers and of his workmen. He served his time and learned his trade with the late David Lynch.

SAM SPEDON HERE.
Sam Spedon, well known motion picture trade journal writer and artist, was in town today en route from the Halifax convention and will make a detailed report for the Motion Picture World of the deliberations in the sister city. Mr. Spedon is a splendid platform speaker, having been years engaged as a lecturing cartoonist. Some time ago he lectured in the important parts of Eastern Canada and his association with the motion picture industry and visits from time to time have made him a welcome figure in the industry in this territory as in the United States and Canada generally.

HELPING THE HUNS.
The Hun army on its retreat is pillaging and destroying everything in its wake. But the citizens of St. John will be surprised to learn that all the Huns have not left the city, as one of the war gardens in the south end of the city is getting its full share of Boche work. Vegetable of all kinds are being destroyed by being taken from the ground and thrown away. This has been going on for some time and the patience of the owners is about ended. If it is not stopped means will be taken to surprise the offenders.

LATE REACHING CITY.
The locomotive drawing the early morning Halifax train developed trouble on the way to St. John during the night and was forced to quit at Hampton, where the engine of the suburban train was commandeered. This eliminated the early local, and the forced suburban to take the nine o'clock, a delay not gracefully accepted by most passengers. The same locomotive then proceeded to the roundhouse under its own steam. The reason for making the shift was largely that of transferring passengers ticketed for American points who had to connect with the 6.45 a. m. train.

MATTER OF INTERPRETATION.
The case of Leaky vs. Grant & Horne, which was tried before His Honor Judge Armstrong and jury yesterday, has been amicably settled. This case arose out of a misunderstanding as to the amount to be paid for unloading three screws; the plaintiff contending that the defendant was to pay him \$125 a load, while the defendant contended that \$125 a ton was the amount agreed upon. When the verbal contract was made the amount stated was \$125, and the interpretation of this led to the misunderstanding. The jury, after hearing the evidence, made the recommendation that the parties get together and settle, and this suggestion was acted upon.

ASHBURN BRIDGE.
The work of rebuilding Ashburn bridge has been completed and the new structure is a credit to the city workmen. The bridge is supported by large pine girders set on solid foundations and the floor is made of heavy timber, so placed that any strain will be well divided. Gravel rails have been placed to act as a safeguard to traffic and eliminating any danger of a team or automobile, out of control, breaking down the railing and being precipitated into the gully. The work has been supervised by Engineer Hatfield and Street Superintendent Clifford Price, and the cost of construction is said to be \$400 less than the lowest tender submitted for the work.

FUNERAL OF MISS THORNE.
The funeral of Miss Hazel Thorne took place this afternoon from her late residence, 6 Peters street. Services were conducted by Rev. R. Taylor McChor and interment was made in the old Church of England burying ground. The many floral offerings testified to the esteem in which Miss Thorne was held in the community. The late Miss Thorne was all but more than a year, but her disposition concealed the fact from many. Miss Thorne's death was learned of with deep regret. In musical circles her position will be hard to fill. Up until the time of her illness, Miss Thorne was a member of the office staff of the Y. M. C. A.

HALIFAX RECONSTRUCTION.
With the approach of winter, great efforts are being made in Halifax reconstruction circles to get homes plastered and dried for occupancy. Property owners are rebuilding their residences with more care and modern ideas than are usually exercised nowadays in small cities. A great deal of the construction is concrete and already the area devastated less than a year ago is dotted with splendid new homes which will make Halifax a very pretty city indeed, residentially, and will absolutely change the appearance of the Richmond district which was not an attractive locality prior to the explosion. It is interesting for St. John visitors to wind their way through a temporary village erected on the extensive common in the centre of the city and to see streets of uniform lay-out bounded by the sea on one side, St. John Avenue, "Fredericton Avenue" and other city names in honor of localities sending in relief money for that specific purpose.

LITTLE BOYS MISSING

Three boys, named Law, Jenkins and Stevenson, living in the east end of the city and attending King Edward school, south end, have been missing since yesterday forenoon. While it is thought their overnight absence may be a boyish prank, nevertheless there is much worry and apprehension among parents. One report stated that one of the lads was recognized proceeding out Douglas Avenue, and an automobile search of the roads in that direction is being made this afternoon. None of the boys—all in the vicinity of twelve years of age—has ever before attended any runaway, and naturally the parents are eager for some trace of the absentees.

GREATER MEASURE OF CO-OPERATION

One Result of Maritime Motion Picture Convention in Halifax—Theatres Offered for Next Victory Loan—Delegates Home

The motion picture convention of Maritime Provincial theatre managers and film exchange men closed its sessions in the Board of Trade rooms of the sister city yesterday afternoon, and the St. John delegates returned by this morning's early train. Fredericton representatives also returned.

The convention placed much valuable and helpful material on its record books, and it is considered that the deliberations of Thursday afternoon will have an important bearing upon the policies of Maritime Provincial houses during the coming critical season, and that the initiative taken by eastern exhibitors will be in the nature of a patella and incentive to other groups of exhibitors throughout the country confronted with similar problems.

The exchange managers of the maritime provinces have recently formed an association for closer co-operation in financial matters, and at the convention of exhibitors the film men were invited to confer on questions of mutual interest and importance. The result is a clearer understanding of plans for the ensuing season and in a spirited discussion, resolutions were passed pledging exhibitors to certain binding arrangements for mutual protection. These plans will be communicated to every manager in the three provinces.

The convention disclosed a splendid spirit of co-operation among theatre managers and local rivalries were entirely set aside in a strong-handed movement to better conditions generally and to throw around the houses protective measures warranted to ensure less loss in these troublous times. Among resolutions passed at the convention were condolence to the family of the late A. E. Wall, chief of the censors in Nova Scotia; upon the tragic death of W. T. H. Puckey, Fredericton, and D. M. Richards, also of Fredericton. A resolution was enthusiastically passed offering the services of the libraries of the maritime provinces in behalf of the next Victory Loan to the ministry of finance. A lengthy telegram of thanks from the department's bureau has been received by the secretary, W. H. Golding.

BURIED WITH INSIGNIA OF COMMODORE'S RANK

Funeral of Walter J. Steiper Marked by Floral Tributes From United States—Relatives on Active Service Represented

The funeral of Walter J. Steiper took place this afternoon from his brother's residence, 26 Paradise row. The service was conducted by the Rev. J. V. Young of the Mission Church, assisted by Rev. R. T. McKim of St. Mary's. Music was rendered by the choir of St. Luke's church under the leadership of H. W. Broadfield. Interment was made in the Greenwood cemetery. Among the floral tributes was a huge anchor from the members of the Saugus River Yacht Club which the late Mr. Steiper has been a popular and respected commodore for several years past, and whose death with insignia of command was by request, buried with him. A large column representing gates ajar was the tribute of the Builders' Association of Boston, and there was a large wreath and basket of roses from a group of friends in the United States.

Mr. Steiper was the youngest son of Mrs. Johanna Steiper of this city, and brother of W. A. Steiper, hardware merchant. Mrs. W. Hanson of Saugus, Mass.; Mrs. J. Howlette, Rockport; Mrs. S. W. Glover, Lynn, Mass.; Mrs. W. Perkins of California, Mrs. F. B. Mullen, Boston, and Misses Annie and Ada are sisters. Cadet Samuel Glover of a United States training ship, attended the funeral as a representative of twenty-four nephews present in active or in training for military service with the United States forces.

LIQUOR IS SEIZED AT RENFORTH STATION

Fourteen Gallon Cans and Four Cases Addressed Care of "J. Snooks, St. John" Are Confiscated

Liquor Inspectors Robert McAlnish, Andrew Garnett and Thomas X. Gibbons this morning made a seizure of fourteen gallons of rum and four cases of liquor at Renforth station. The haul was one of the largest made by these inspectors since their appointment and they are receiving the congratulations of friends and others who are opposed to the illegal sale of liquor and boot legging.

The inspectors have been watching this station for some time and this morning their vigilance was rewarded, for they received a clue that a shipment had arrived there and immediately hired an automobile and hurried to the scene. When they arrived they noticed a large case, with markings which indicated that it contained hardware, but upon a closer inspection they detected an odor of liquor and forthwith broke it open. They found that it contained fourteen one-gallon cans and four cases of liquor. They were addressed to "J. Snooks, Renforth, care J. Snooks, St. John, N. B." The officers confiscated the liquor and brought it to the city. When the automobile arrived at the inspectors' headquarters in Prince William street, quite a crowd of citizens assembled and watched the "wet" goods being conveyed into their office. The markings on the boxes attracted their attention and there was considerable speculation as to the owners. The name J. Snooks caused many jocular remarks. Residents of Renforth say that mysterious packages have been arriving there quite regularly and have been taken away at night by teams and motor cars.
